# Arcane Enhancement

[416](#) [EDIT](#)

**Arcane Enhancements** are special items that can be installed on certain equipment to grant them buffs that can be activated by achieving certain conditions within a mission. There are several major types of Arcanes that can be applied to their own dedicated set of items. Arcanes can be freely installed and will not be destroyed if they're unequipped or replaced by other Arcanes.

Arcane rarity is indicated by the color and design complexity of the Arcane. Common Arcanes are Bronze, Uncommon are Silver, Rare are Gold, and Legendary are Platinum.

The higher ranks are denoted by the higher number of connectors on the bottom and the higher number of chevrons on the top of their individual icons.

## Mechanics

Arcanes are activated by accomplishing its trigger condition (e.g. landing a [Critical Hit](#), or

<h2>Application</h2>	
<p>A total of two Arcanes can be equipped on each <a href="#">Warframe</a>, <a href="#">Operator</a>, and Operator <a href="#">Amps</a> (however, in the case of Warframes when an <a href="#">Arcane Helmet</a> is used only a single Arcane can be equipped alongside). A maximum of one Arcane can be equipped on all weapons, while <a href="#">Zaw</a> and <a href="#">Kitgun</a> Arcanes occupy a unique slot separate from Primary/Secondary/Melee Arcanes. <a href="#">Archwing</a> weapons have no Arcanes, and thus no slots.</p>	
<p>They can be installed through their respective upgrade screens for the item. Arcanes can be upgraded in the <a href="#">Orbiter</a>'s Arcane Segment located between the Mod and Incubator Segments, which becomes available after acquiring an Arcane, or while equipping one in the <a href="#">Arsenal</a>. Rank insignia of an Arcane will be visible below its name, denoting how many upgrades it has undergone.</p>	
<p>Much like Mods, Arcanes can be equipped across multiple items, though they have a unique progress bar of their own to the right of the Foundry selection. Similarly, duplicate Arcanes cannot be equipped on the same item.</p>	
<p>Warframe's <a href="#">Exalted Weapons</a> and <a href="#">Sentinel</a>'s Robotic Weapons cannot equip Primary, Secondary, or Melee Arcanes.</p>

Every successive rank-up requires one more Arcane than the previous one. The maximum rank of an Arcane depends on its type:

## Dissolution

Following completion of the [Whispers in the Walls](#) quest, [Loid](#) offers his services for **Arcane Dissolution**. Unwanted Arcanes can be dissolved into [Vosfor](#) which can be traded back to Loid in exchange for randomly selected Arcanes from a collection of choice. All collections cost [200](#) and [50,000](#) to purchase.

# Warframe Arcanes

## Arcane

Warframe Arcanes, simply referred to as **Arcane**, were originally introduced with [Trials](#), namely [The Law of Retribution](#) in [Update 16.0](#) (2015-03-19) and [The Jordas Verdict](#) in [Update 17.9.1](#) (2015-10-29).

However, Trials have since been retired in [Update 22.14](#) (2018-03-01).

Arcane Drop Model

- In [Hotfix 22.13.2](#) (2018-02-16), they were permanently added to [Eidolon Teralysts](#), [Gantulysts](#), and [Hydrolysts](#) drops from either killing or capturing them. Captures will yield more exquisite rewards than simply killing them; for example, killing a Teralyst will only yield common Arcanes while capturing it will yield a higher chance to drop the more uncommon ones.
- Later updates added Eidolon Arcanes to limited-time events:
  - [Update 27.3](#) (2020-03-24) added all Eidolon Arcanes in [Operation: Scarlet Spear](#), purchasable from [Little Duck](#) using [Scarlet Credits](#) for the duration of the event.
  - In [Update 29.6](#) (2020-12-18), the Arcanes returned through [Operation: Orphix Venom](#), purchasable from [Father](#) using [Phasic Cells](#) for the duration of the event.
  - In [Update 35.0](#) (2023-12-13), they were available through [Operation: Gargoyle's Cry](#), purchasable from the Vigile Jahu Gargoyle for [Grotesque Splinter](#) for the duration of the event.
  - In [Update 36.0](#) (2024-06-18), they were available through [Operation: Belly of the Beast](#), purchasable from [Ordis](#) for [Volatile Motes](#) for the duration of the event.
- [Update 29.10](#) (2021-03-19) permanently added the [Orphix](#) mission to the game, with all Eidolon Arcanes available through Rotation C.
- [Hotfix 25.7.6](#) (2019-09-18) introduced five Warframe Arcanes ([Arcane Blade Charger](#), [Arcane Bodyguard](#), [Arcane Pistoleer](#), [Arcane Primary Charger](#), and [Arcane Tanker](#)), exclusive to [Arbitrations](#).

- Update 32.2 (2022-11-30) introduced two Warframe Arcanes ([Arcane Blessing](#) and [Arcane Rise](#)), exclusive to [Conjunction Survival](#).
- Update 32.3 (2023-02-15) introduced two Warframe Arcanes ([Arcane Double Back](#) and [Arcane Steadfast](#)), exclusive to [Mirror Defense](#).
- Update 33.0 (2023-04-26) introduced two Warframe Arcanes ([Arcane Reaper](#) and [Arcane Intention](#)), exclusive to [Duviri](#).
- Update 33.5 (2023-06-21) introduced one Warframe Arcane ([Arcane Power Ramp](#)), exclusive to Duviri.
- Update 36.0 (2024-06-18) introduced two Warframe Arcanes ([Arcane Battery](#) and [Arcane Ice Storm](#)), exclusive to [Ascension](#).

## Arcane Revives

Arcane Revives is a feature that is only gained from equipped Warframe Arcanes that is Rank 3 or higher. Other types of arcanes such as Magus or Exodia do not benefit from this. Each Arcane Revive equipped allows the player to [revive](#) their Warframe an additional time, with a maximum total of 6 revives usable in a mission.

## Operator Arcanes

### Magus

**Magus** Arcanes affect the [Operator](#) and may provide benefits that also affect the Warframe. Magus Arcanes are purchasable from [Quill Onkko](#) and [Little Duck](#). Following [Update 24.6](#) (2019-04-04), Onkko and Little Duck both sell fully built Arcanes rather than Arcane Blueprints.

- [Update 33.0](#) (2023-04-26) introduced one Magus Arcane ([Magus Aggress](#)), exclusive to [Duviri](#).

## Melee Weapon Arcanes

Unlike other Arcanes, these slots must be unlocked using

[Melee Arcane Adapter](#).

**50,000** and requires **Rank 3 - Colleague**, or as a reward from [Netracells](#) or Deep Archimedia missions. Acquiring a Melee Arcane Adapter requires completion of the [Whispers in the Walls](#) quest.

Applying Melee Arcanes requires the [Melee Upgrade Segment](#) obtained from the Whispers in the Walls quest.

They occupy their own spot that is separate from [Zaw's Exodia Arcanes](#).

## Melee

**Melee** Arcanes were introduced in [Update 35.0](#) (2023-12-13), obtained from [Albrecht's Laboratories](#): defeating [Mocking Whisper](#), [Scathing Whispers](#), or [The Fragmented](#), awarded from [Netracells](#) missions, or bought from [Bird 3](#) or [Cavia](#).

- [Update 36.0](#) (2024-06-18) introduced one Melee Arcane ([Melee Afflictions](#)), exclusive to [Ascension](#).

## Raw Data

Main article: [Module:Arcane/data](#)

For a community-contributed list of Arcanes in [WARFRAME](#), see [Module:Arcane/data](#).

## Notes

- The benefits of Arcane Enhancements do not always carry over to [Archwing](#) mode if players have an Arcane enhanced item equipped on their active loadout's Warframe.
  - [Arcane Nullifier](#) on the [Plains of Eidolon](#) will not block [Magnetic](#) procs from water when in Archwing, but will on foot.
- The number of Arcanes  $A$  required for rank  $n$  follows the sequence of triangular numbers given by: 
$$A = \frac{(n+1)(n+2)}{2}$$
- Arcanes that are physically dropped by enemies are considered a Mod drop, and are thus affected by [The Steel Path](#) and [Mod Drop Chance Boosters](#).
- Because they are dropped as mystery items in the form of a Mod item, Arcanes dropped by [Acolytes](#) in The Steel Path will be sucked up and permanently

- Primary passives do not apply to Secondary weapons. Similarly Secondary passives do not apply to Primary weapons.
- Trading Legendary-grade Arcanes ( [Arcane Barrier](#), [Arcane Grace](#), [Arcane Energize](#), [Arcane Reaper](#), [Longbow Sharpshot](#), [Secondary Shiver](#)) require the player to be [Mastery Rank 11](#).

## Trivia

- Before [Update 24.6](#) (2019-04-04), Magus, Virtuos and Exodia Arcanes in Cetus are purchasable as blueprints, requiring time and resources to build in addition to standing.
  - Built Arcanes can be [traded](#) between players, however Arcane blueprints cannot.

## Patch History

### Update 36.0 (2024-06-18)

#### New Arcanes

Enhance your Arsenal with these new Arcanes! Acquire these new enhancements from Sisters of Parvos spawned in the new Ascension game mode, or exchange them for Vestigial Motes via Ordis in the Larunda Relay.
