46k Sustained! Riven Oriented Build

This is the general use build i have been using that has been very reliable for me mixing with saryn and her armor stripping abilities. In Steel path + Saryns armor stripping this build 1-3 hits enemies and will obliterate a nox within a few seconds if its got about 4 status proc's on it.

I left an open slot for the riven or any other mod you desire, [\[Body Count\]](#) or [\[Drifting Contact\]](#) were used before i finally got a [\[Kronen\]](#) riven.

but as you can see this build has slightly less range (not that big of an impact as [\[Sovereign Outcast\]](#) has a pretty good range already.) but this build is doing 7,000 more damage on the average hit and 15,000 more sustained DPS all while having an open slot for a riven.

my current setup I use has a riven that gives:

54% Cold
111.2% Melee Damage
110.9% Critical Chance
-4.2 Combo Duration

which makes the final numbers:

Average Hit: 35,482.1 |
Sustained DPS: 72,442.5

this is my first build i have created so any feedback would be fantastic.
