Gathering Tips

- Destroying Asteroids, Red barrels, Metal scrap around wreckages, and Green rifts in any of the Empyrean missions has a small chance to drop Nullstones.

Trivia

- Nullstones probably have some kind of connection to the [Void](#), evidently as they do not conform with several laws of physics. This would make them have some form of connection or relation to [Argon Crystals](#) and [Prisma Crystals](#) as well.
 - The term *null* is also a synonym of *void*.
