Railjack wreckage

[Question/Request](#)

I'm in need of endo and want to scrap some wreckage but what's the difference between scrap wreckage and scrap recovered wreckage? Are they the same thing ?

One is an unknown wreckage that cost no slot, other is a wreckage with known stat and cost slot. They yield the same endo.

Ohh thanks so basically scrap recovered wreckage is useless and I can scrap without worrying about getting rid of something I don't want to

The amount of MR 15-26 players I have encountered who don't know you can swap weapons in the forward artillery seat of the Railjack is way too high. DE please, please add a simple button prompt
