Strength is Hildryn's virtue. Her
unique high-damage abilities are
powered by her Shields, which
can be recharged with Energy.
Hildryn proves that a strong
offense is a good defense.

HILDRYN BUILDS

BUILDS BY THEMOON85

Booty too stronk. Wow. Much Shield. So Power.

Hello there,

Major update! V2.0

No more stupid builds where [Hildryn] is passive and does nothing.

My build **focuses** on her **skills** and thanks to [Adaptation], [Hildryn] will take a lot on the chest ... and give it back pretty much.

Her **Balefire** is her **ultimate weapon**, where you really have to put a lot of pressure on someone.

With **347% Strength** her skills really melts everything, she can spam her **Shield Pillage** to get back her "energy" she used on **Haven** and **Balefire**.

Yes this is how the playstyle look like. You enter mission, cast Haven (once and for ever), spam Shield Pillage on group of enemies, kill, kill, kill... if it's not dying, you use Balefire.

Alternatively, you can **swap** [Streamline] **with** [Stretch], if you feel like you can manage her "energy".

In this build you will not use her **Aegis Storm** even if it so fancy and "Look mom I can fly!!!". This skill only look nice but **it's shitty** actually and **drain her Shields like my government my wallet**.

A great complement to Hildryn will be her signature weapon - **Larkspur**.

Recommended Arkana is **Avenger** or **Guardian** (**Tanker** if you are going to use Archgun) and **Aegis**.
