

ITEM WEAPON PRIMARY BOW KUVA BRAMMA

Kuva Brahmashirsha Astra Brama

by THeMooN85 — last updated 10 months ago

15 5 0

This Grineer bow delivers vengeance in the form of clusterbomb-tipped arrows that can be detonated mid-air or on impact. Low quiver capacity, arrows are recovered singly.

Kuva Brahmashirsha Astra Bramma

Hello there,

BUILD UPDATED.

Hey dickheads :) I'm deleting all your comments, because... I can, and you cant do shit about it. PS. I'm not using this bow, that's why the build was outdated.

As per [Wiki](#):

- **Kuva Bramma: A massive bow that fires explosive arrows and clusterbombs, which can be detonated mid-flight.**
- These weapons have a **max rank of 40**. To obtain the maximum rank, the player must **polarize the weapon five times**, with each Forma increasing the maximum possible rank by 2 (in a similar manner as the [Paracesis](#)).
- All Kuva weapons deal **innate elemental damage** in addition to physical damage. The **amount** of this damage is **random, ranging from 25-60%**, while the type of element is determined by the Progenitor Warframe, as per the table below:

Element	Progenitor Warframe*
 Impact	 Baruuk •  Gauss •  Grendel •  Rhino •  Sevagoth •  Wukong •  Zephyr
 Heat	 Chroma •  Ember •  Inaros •  Nezha •  Protea •  Vauban •  Wisp
 Cold	 Frost •  Gara •  Hildryn •  Revenant •  Titania •  Trinity
 Electricity	 Banshee •  Excalibur •  Limbo •  Nova •  Valkyr •  Volt
 Toxin	 Atlas •  Ivara •  Khora •  Nekros •  Nidus •  Oberon •  Saryn
 Magnetic	 Harrow •  Hydroid •  Lavos •  Mag •  Mesa •  Xaku •  Yareli
 Radiation	 Ash •  Equinox •  Garuda •  Loki •  Mirage •  Nyx •  Octavia

According to the above, I added **exactly 5 forma** to this weapon, so we can **obtain Mastery Points** from it.

In this case, I recommend picking **Toxin** as an elemental.

Some info about this weapon:

- Shots explode in an **8.3-meter** radius on impact with a surface or enemy, then splits into 3 smaller bomblets that rain down on the point of impact which explode in an 3.5-meter radius

[Top Builds](#)
[Tier List](#)
[Player Sync](#)
[New Build](#)

from central impact

- Bomblets have **linear damage falloff from 100% to 50%** from central impact
- Projectile has **travel time with heavy arcing**
- Relatively **high spread**, making aiming at distant targets **inconsistent**
- **The Smallest ammo reserve** of all bows
- Draws ammo from the rare **sniper ammo pool**
- Only restores **one unit of ammunition per ammo pickup**
- Can benefit from **(Primed)** [\[Firestorm\]](#)

This build will **gain** much more from **combining** your **Warframe** with **Sentinel** which will carry **Sentinel Weapon** with **Vigilante mods** on it. Four **Vigilante Mods** gives you **20% chance to enhance Critical Hits from Primary Weapon**.

Enjoy, THeMooN85
