New War Ballas - can't defeat him

[Question/Request](#)

Hey there, i'm a relatively new player to this game and i love it! but i also rushed it like crazy to play the new war.

Currently i'm stuck on the last mission.

I know the mechanics and how to defeat Ballas, but my amp it waaay to weak :D

Does anybody had the same issue and maybe knows a solution ? ♡

Its 100% possible to do it with a Mote amp there really isn't much tricks to beating Ballas I would just keep trying until you get it it took me a few tries as well I would say build a better amp then try it but NW locks you from the rest of Warframe.

Sorry man, but unless you have another amp you can't make one till you finish the quest

I did it with a level 11 mote. Go back in and out of your warframe to stop draining your health. We'd probably have to see a video to pinpoint exactly what you're doing wrong

You have to start shooting before the shield comes down. You get about a second of damage right before it comes down and that's enough to complete the mission.

Any tips for the strong fists achievement? I see everyone else doing it and I don't know the way to go. I have all the f2p characters fully leveled up and their skills. Thanks!
