## CODEX

Styanax's speargun matches his might. Throw Afentis to pin an enemy and nearby enemies will also be stunned. Throw Afentis onto the ground to buff allies with Ballistarii Might. The buff increases reload speed, fire rate, and ammo pools and reduces recoil. Allies who kill enemies with Ballistarii Might maintain the buff temporarily when they move away from

## LEVERIAN ENTRY

As Stygian struck and struck again with the Afentis, making little headway against the relentless Leviathan, a final desperate scream from Aria achieved the impossible.

It awoke Darro.

WARFRAME Wiki

It shoots ballistic projectiles that embed itself on a surface or enemy before exploding, dealing high  **Blast** damage but is burdened by low [fire rate](#) and low magazine. When thrown with [Alternate Fire](#) it impales enemies onto surfaces; impacting the ground instead produces a field that boosts ally Weapons' [reload speed](#), [fire rate](#), and reserve [ammo](#), and reduces [recoil](#).

## Characteristics

- This weapon deals primarily  **Blast** damage.
- Primary Fire shoots ballistic projectiles, causing a small **3** meter explosion after **0.8** seconds on impact with a surface or enemy.

 We value your opinion and strive to make your experience better. Help us improve by answering our 5-minute survey

- Initial hit and explosion apply status separately.
- Explosion does not need direct line of sight to deal damage and will penetrate walls.
- Can benefit from **Firestorm** ( Primed) and **Cautious Shot**.
- Alternate Fire** throws a *duplicate* of the Afentis, allowing the player to keep using the speargun instead of switching to their secondary arm:
  - Throwing the spear consumes 1 ammo, then reloads the weapon.
  - If it hits an enemy, they are impaled to the surface for **20** seconds.
    - Shockwave inflicts self-stagger, despite dealing no radial damage.
  - If it does not hit an enemy, the spear produces a **5** meter **Ballistarii Might** field.
    - The field lasts for **10** seconds.
    - Killing an enemy while player is within the **Ballistarii Might** field.

## Notes

- Currently, Afentis lacks a [Signature Weapon](#) bonus with [Styanax](#).
- The Afentis is currently unique in terms of speargun primary fire usage, in which the crossbow component has its own manual reload animation sequence before launching another bolt, unlike other spearguns which are essentially simply point and fire.
- Due to the Afentis having high explosive shots with potentially massive damage and limited ammunition, the speargun is best treated as if it is a launcher-type primary.
  - When combining multishot mods with [Heavy Caliber](#), one of the bolts will fly towards the point of aim while the rest of the bolts will fan out slightly and explode extremely close to the point of aim even at long ranges.
- The primary fire's explosion will ragdoll all enemies caught in it, regardless if they are immediately killed by it or not.
- Planting a delayed explosive bolt on a surface before a [nullifier bubble](#) crosses it causes the resulting explosion to deal damage to anyone within the bubble, but not anyone outside it.
- Equipping [Punch Through](#) mods will cause the Afentis's bolts to knock down all

headshot conditions, the bolt gon Scope ([Galvanized](#)) or force the delayed explosion's

- Ballistari Might does not apply to companions.

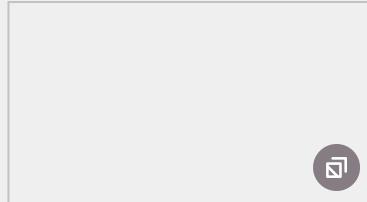

## Tips

- When fighting from a holdout position in [Survival](#) and [Defense](#) missions, plant the Ballistarii Might field well within squadmates' reach so that everyone can easily benefit from the added firepower.
  - Note that triggering the extended Ballistarii Might buff *will not automatically grant* the bonus ammunition reserves, so players must manually pick up the extra ammo while the buff is active or, alternatively, use a [Squad Ammo Restore](#) deployable for quick replenishment.

## Bugs

- Afentis is able to equip [Vigilante Supplies](#), but not any other Ammo Mutation mod.
  - Vigilante Supplies also does not function properly, picking up and consuming secondary ammo boxes without giving ammunition to the Afentis.
