Passive

 **Styanax**'s weapon [Critical Chance](#) bonus increases by **1%** per **40 Shield** points, based on his current total including Overshields. Passive bonus is doubled on [Speargun](#) primary [Weapons](#), such as Styanax's signature  [Amentis](#),  [Scourge](#) ( [Prime](#)),  [Ferrox](#) ( [Tenet](#)), and  [Javlok](#).

- Passive bonus value is displayed as a [Buff](#) icon called **Hoplite** beside Styanax's hitpoint indicators.
- Critical chance bonus percentage changes in real time to reflect Styanax's shield pool.
- Critical chance bonus stacks additively with [Mods](#).
- While Styanax has a Speargun equipped, the Hoplite buff will display the increased critical value, even when holding another weapon.
