# Incarnon

[122 EDIT](#)

*These used to be museum fodder, ceremonial and all that golden piss talk. But now, real weapons. Void-touched, not fashion accessories, not conversation pieces. They are for killing. We good?*

—Cavalero

The **Incarnon** system is an upgrade mechanic for weapons that attunes them to the Void, augmenting them with increased lethality via alternate forms and evolutionary upgrades. Some of these weapons were ceremonial Zariman paraphernalia transformed by the Void jump, while others were a result of Albrecht Entrati's experiments.

Incarnon weapon upgrade screen

Additionally, a variety of weapons throughout the Origin System can receive an Incarnon Genesis, an adapter that can provide otherwise ordinary weapons access to Incarnon forms and upgrades. All weapon types (MK1, Prime, Vandal, etc.) are eligible to receive a Genesis. Dual and Akimbo versions of weapons are considered different weapons under the Incarnon system, as is the same under the Riven system.

Access to Incarnon system requires completion of the [Angels of the Zariman](#). Unlocking Albrecht's Incarnon weapons requires completion of [Whispers in the Walls](#) and [The Deadlock Protocol](#), while Incarnon Geneses require [The Duviri Paradox](#) and having unlocked [The Steel Path](#).

## Acquisition

Zariman Incarnons can be purchased from [Cavalero](#) in the [Chrysalith](#) with [The Holdfasts](#) standing after completion of [Angels of the Zariman](#). All 5 of the current weapon blueprints require [Mastery Rank](#) 14 to purchase and are [tradeable](#).

Albrecht's Incarnons blueprints are a [Rotation](#) reward from [Disruption Armatus](#) on

access. Alternatively they can be purchased from [Loid](#) in [Sanctum Anatomica](#) for [Vessel Capillaries](#) dropped by Disruption Armatus [Demolishers](#) in quantities of 2-3 (5-7 on [The Steel Path](#)).

Incarnon Genesis Adapters are obtained from [Duviri's The Circuit](#) on [The Steel Path](#), requiring completion of [The Duviri Paradox](#) to access. Cavalero assists with the installation process, additionally requiring 20 [Pathos Clamp](#) and two other types of Duviri resources.

Alternatively, the [Boar](#), [Gammacor](#), [Anku](#), [Gorgon](#), and [Angstrum](#) Incarnon Genesis Adapters can be purchased from Cavalero's "Incarnon Market" for **120**. Purchasing the adapters this way also comes with the resources used to install them. Each adapter can only be bought **once**.

Cavalero can also remove the Incarnon upgrade to return the Genesis Adapter, but the Duviri resources used for the installation are **not** refunded.

## Reward Rotation

*This section is transcluded from [The Circuit § The Steel Path Circuit](#). To change it, please [edit the transcluded page](#).*

Players can select two of the following per week: five [Incarnon Genesis](#) Adapters that cycle weekly. If the player has Drifter Opportunity Intrinsics at Rank 9, they can choose from Rifle, Pistol, or Melee [Riven Mods](#), or [20,000 Kuva](#) to be their Tier 5 and Tier 10 rewards.

a UI indicator for Incarnon Transmutation

nu

mber of challenges based on the weapon, Incarnon weapons can receive evolutions from Cavalero. Like other challenges (Riven mods, Nightwave, etc.), progress is tracked independently from mission progress. Each weapon has a total of **5** evolutions.

The first evolution unlocks the weapon's Incarnon Form, granting them an [Alternate Fire](#) mode or increasing their stats while changing their appearances. Activating the Incarnon Form requires certain conditions be met in missions, the method of which differs depending on the weapon.

For primary and secondaries (e.g. [Laetum](#), [Phenmor](#), [Felarx](#)), the Incarnon Transmutation gauge that appears under the reticle must be charged to activate by achieving headshots. [Angstrum Incarnon Genesis](#) and [Torid Incarnon Genesis](#) are instead charged through direct hits. While active, the Incarnon Form uses its own secondary ammunition via the amount in the Transmutation gauge. Activating the Incarnon Form only requires at least one unit of charge, but manually deactivating the mode will deplete the entire gauge.

For melees (e.g. [Praedos](#), [Innodem](#)), the Incarnon Form is activated by reaching a 5x [Melee Combo](#) (6x for [Ruvox](#) and Genesis) and then executing a [Heavy Attack](#), which lasts for 90 seconds (180 seconds for Genesis) and is non-refreshable.

The remaining evolutions provide **3** different selectable perks that further enhance the weapon's stats. Only one perk can be selected, which can be changed freely with Cavalero or in the [Arsenal](#).

Below are the challenges required to unlock the evolutions of each Incarnon weapon currently available. The first, fourth, and fifth challenges are identical between Incarnon weapons, but the second and third evolutions differ between each weapon.

Progress for all challenges is maintained between runs, so the player does not have to complete them in a single mission.

- Evolution I: Kill 100 enemies with the weapon
- Evolution II:
  - Laetum/Phenmor/Felarx/Onos/Ruvox: Kill 8 [Eximus](#) with the weapon's Incarnon Form
  - Praedos/Innodem: Activate Incarnon Form 6 times in a mission
- Evolution III:
  - Laetum/Phenmor/Felarx: Land 8/20/20 headshots on [Void Angels](#) with Primary fire without reloading
  - Praedos/Innodem: Complete 3 Heavy Attacks on [Thrax Centurions](#) or [Legates](#)
  - Onos: Get 5 headshots on [Scathing](#) and [Mocking Whispers](#) in Albrecht's Laboratories with Primary fire without reloading.
  - Ruvox: Inflict 3 Heavy Attacks on Scathing and Mocking Whispers in Albrecht's Laboratories
- Evolution IV:
  - Zariman Ten Zero: Close 12 Ruptures in [Void Flood](#)
    - Player *must* have contributed to closing the rupture via depositing Vitoplast.
  - Albrecht's Laboratories: Open 20 Conduits in [Disruption](#) on [Armatus](#), [Deimos](#).
- Evolution V: Complete a Solo mission with an Incarnon Weapon equipped in every slot
  - Any mission will suffice for this challenge.
  - Incarnon Genesis weapons are considered for the purposes of this challenge.

## Genesis

*Heard you been grubbing around in the Zariman's backyard. That little tinpot kingdom!*

*Well, in my extensive downtime, I've been having thoughts about weapons. How I could upgrade 'em. Give 'em a sprinkle of Void magic. And guess what? The Void did what the Void does. Took my ideas and made them real. How about that. So if you've picked up a... let's call it an Incarnon Genesis, why not? An Incarnon Genesis, bring it to me and I'll get it installed for ya.*

—Cavalero

Similarly to the Zariman weapons, the Genesis weapons have their own challenges, but only have **4** evolutions in total. Slotting in the Genesis Adapter is considered the first challenge. Challenges only need to be cleared once per weapon type, for example clearing [Braton](#)'s challenges will automatically unlock perks for [MK1-Braton](#), [Braton Prime](#), and [Braton Vandal](#) when acquiring their Incarnon forms. The remaining challenges are as follows:

- Evolution II: Complete a solo mission with the weapon
- Evolution III:
  - Primary/Secondary: Kill 100 enemies with the weapon's Incarnon Form
  - Melee: Activate Incarnon Form 6 times in a mission
- Evolution IV: Varies by weapon

## Movement Bonuses

Every incarnon genesis melee weapon offers a bonus to sprint speed and bullet jump upon transforming into incarnon mode. All non-genesis melee weapons, as well as a few genesis weapons and the Laetum, also offer some bonuses for selection as an evolution perk upgrade:

**[Expand]**

## Trivia

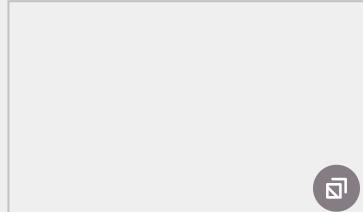

- *Incarnon* is based on the word *incarnate*, which means to embody something, like a deity or spirit, in the flesh.

## Patch History

### Hotfix 36.0.8 (2024-07-25)

- Fixed Melee Incarnons not displaying Incarnon charging UI for Clients with Melee Retaliation equipped.

- Fixed certain Incarnon Weapon stats showing as "0" and the UI showing a comparison state as if Mods had been equipped, when in fact they had not yet.
- Fixed repeatedly hovering over Praedos' "Drifting Grace" Incarnon Evolution incorrectly increasing a Warframe's Sprint Speed stat in the Arsenal UI.
