Robo Dog (UPDATE 34 | OCT 2023)

Pick any parts as long as the final shield value is greater than 343.

[Synergized Prospectus] and [Repo Audit] trigger [Manifold Bond], applying the status effects on the hound weapon to a 30 m AOE.

Killing enemies tagged with status effects then reduces the cooldown via [Manifold Bond], allowing the hound to spam abilities (usually prioritizes top left slot).
[Repo Audit] also disarms enemies.

[Momentous Bond] allows extra statuses to be applied after eximus kills, and also helps with reviving.

[Aerial Bond] helps revive and gives minor CC.

[Vicious Bond] is optional for occasional armor strip.

[Calculated Redirection] + Reinforced bond are optional for bonus 60% fire rate boost.

[Primed Pack Leader] optional on melee frames to heal and give it overguard.

Flexible Options: Primed Animal Instinct for loot radar, Primed Pack Leader for healing pet/giving overguard if using melee, Seismic Bond if using channelling ability.

Melee build (just need innate puncture, as puncture procs boost crit chance): <https://overframe.gg/build/542052/>
