EQUINOX PRIME BUILDS

BUILDS BY NINJASE

Terrify Equinox | Full armor strip + Maim

With new Veilbreaker change, Terrify now full strips at just 167% ability strength with a base duration of 25s. Alternatively you could use Fireblast and fullstrip permanently with TWO casts at just 100% strength. This means you could drop [Peaceful Provocation] and [Augur Secrets] entirely, or consider dropping peaceful provocation for umbral intensify and use a different arcane to molt augmented.

OPTION 1: Requires approx 230-250 kills from Molt Augmented

At 84% base strength, Molt Augmented gives +60% strength to 144% after 250 kills. At 144% strength, casting Provoke (day form) gets you get an additional 29% strength, giving exactly 173% final ability strength.

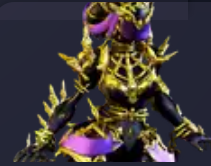

OPTION 2: Requires Madurai but NO augmented buildup

Add Augur Secrets over Stretch/[Augur Reach] to hit 104% base strength, then trigger Madurai Power Transfer for an additional 40% strength to hit 144%, before using Provoke.

Survivability is via shield gating. Running Brief respite with THREE total augur mods on warframe/pistol allows you to reset shields with one cast of Terrify (costs 30, which refills 81 shields, with 74 max shield capacity with [Catalyzing Shields] on).

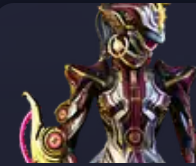

If you have Amber Cast Speed Shards, you can replace [Natural Talent] with [Primed Flow], [Streamline] or [Augur Message].

For Energy can use [Dethcube] with [Energy Generator] and [Seismic Bond] (allowing you to use Rank 4 [Fleeting Expertise])
