This is Banshee, stealthy and ranged.

No one puts Banshee in a corner, Tenno. The element of surprise is in her favor.

Trivia

- The name **Banshee** comes from the Irish mythological creature which wails loudly if someone is about to die. This corresponds to the Warframe's powers as she is based on sound.
- Banshee was originally developed under the name Decree and is still referred to as such internally in the game files.
- The characteristic large spike on Banshee's left shoulder is considered a customizable **Armor** part, and will be removed if any other arm plates are used. This makes it possible to make a symmetrical Banshee.
