## Explosive pistol mods

[Question/Request](#)

So, I've out of wf for solid one year now, and with so many things added to the game in this period (deimos, Rj and other stuff) I got myself wondering if DE made something akin to concealed explosives to pistols...

As for why I am looking for it, I really enjoyed the zakti prime and caught myself wondering if it would be possible to do something similar to other little creatures... GRAKATAAA

concealed explosives to pistols

About five years back, there was a leaked mod called Cannonade that was exactly that, but for whatever reason, they never fully added it in to the game.
