## Is paracesis worth it?

[Discussion](#)

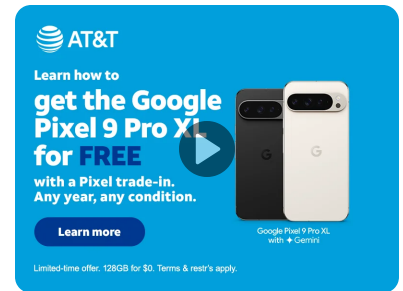

Is paracesis really worth the 1k ducats? I don't think I've ever had 1000 ducats but if it's actually a decent melee to gain Mr off I'd be down for the grind

It's very good, but not quite top tier, so it largely depends on what you already have and if you wouldn't rather spend the ducats on other things.

It was my main melee for a good while once I got it, but it was eventually replaced by better weapons.

It used to be needed to start a quest, but that was changed and now when it's involved in quests an unmodded one is given temporarily.

What even is considered top tier these days?

It can go hybrid crit and status, and can go to 40 with forma.

I like it, plus the uses for sentients in Archons.

Also swings fast for a heavy blade.

At the very least, it's worth Mastery Xp. That alone makes it worth it at any price. As a bonus it's a pretty good sword as well.

If you've never had it, it's worth getting. I wouldn't say "hey go out of your way and go get Paracesis" but it's still a strong melee.

Don't know what you use currently but it's probably better if you're low MR.

It's unique ability to reset sentient resistances on hit make it nice for cleaving high level sentients but not really necessary. Ever since DE allowed statuses to affect sentients I haven't felt the need to bring it anywhere
