Notes

- The amount of Shields created is calculated after taking into account [damage modifiers](#).
- Molecular Conversion will create [Overshields](#) for the Warframe if its shield restoration exceeds the amount of shields that the Warframe has lost.
 - The overshields stack as long as the player doesn't take damage to their overshields in excess to the shields granted.
 - This stacking has an upper limit – 6 times the listed capacity. This is 1,200 overshields at max rank.

Blast enemies within 10m, converting 200 Damage into Shields for the Warframe.
