Styanax's speargun matches his might. Throw Afentis to pin an enemy and nearby enemies will also be stunned. Throw Afentis onto the ground to buff nearby allies with Ballistarii Might. The buff increases reload speed, fire rate, and ammo pools and reduces recoil. Allies who kill enemies with Ballistarii Might maintain the buff temporarily when they move away from Afentis.

AFENTIS BUILDS

BUILDS BY AGGREBEE

Ultimate Alt Fire Support Afentis

[Afentis] is something of a dumpster fire when it comes to actually using it as a weapon on Steel Path, so this build is PURELY used to make its alt fire buff come out as fast and as often as possible.

Maxed fire rate - important for throw speed

Maxed reload speed - it HAS to reload after alt fire, even if you switch weps and restore ammo passively

Max projectile speed - not super necessary but it hits the ground 0.01 seconds faster.

Arcane - Use Fractalized Reset for better reload speed, or Primary Dexterity if you want the melee combo duration.

Riven - As you can probably guess, you want fire rate, reload speed, and projectile speed.

Other notes: [Amalgam Serration] for Sprint Speed passive, and [Aero Periphery] for aim glide sleep passive purely because you have the extra slots.
