Mirror Defense

EDIT

QUOTES

Mirror Defense is a variant of [Defense](#) where the [Tenno](#) are tasked to protect two defense objectives connected through the [Void](#), while collecting pickups to gain resources and activate defensive systems.

Access to the node on [Tyana Pass](#), [Mars](#) requires completion of the [Heart of Deimos](#) quest and [Mastery Rank](#) 3, while [Munio](#), [Deimos](#) requires completion of [Whispers in the Walls](#) quest.

Mechanics

Unlike traditional Defense where enemies are fought off in waves, Mirror Defense consists of a time limit of two and a half minutes for each objective, with a 30 second downtime in between to traverse the Void tunnel. A rotation is completed once both objectives have been defended, or every five and a half minutes. Rotation rewards follow an **AABC** drop table pattern.

Tyana Pass

Players must protect two crystals, **Rania's Crystal** from [Grineer](#) on [Mars](#) and then cross a [Void](#) tunnel to defend **Belric's Crystal** from [Corpus](#) on [Venus](#). These crystals cannot be healed by [Abilities](#) or weapon [passives](#) unlike typical [Defense Objects](#).^[1]

Citrine's Remnants, appearing as crystallized teardrops, can be found scattered across the tilesets as enemies are slain and are most abundant during the Void tunnel transition. Remnants appear in groups of 3-8 and spawn in with an audible cue, and these pickups are shared squad-wide. Collecting 50 will heal the active crystal by 3,500 plus 15% of its max Health, grant it [Overshields](#), and spawn a  [Prismatic Ward](#) above the crystal to provide firing support. Remnants will despawn on the active tileset once the time limit ends. Remnants are **not** affected by  [Vacuum](#) or  [Fetch](#), and are **not** able to be picked up with  [Mag's Pull](#) ability or while within  [Limbo's Rift Plane](#) or with  [Wukong's Cloud Walker](#).

Tyana Pass

Tyana Pass is the primary source for the Warframe [Citrine](#), her weapons [Steflos](#) and [Corufell](#), the [Arcane Enhancements](#) [Arcane Steadfast](#), [Arcane Double Back](#), [Primary Plated Round](#), [Secondary Encumber](#), [Secondary Kinship](#), and [Belric Crystal Fragments](#) and [Rania Crystal Fragments](#) which are used to purchase all of the above plus Citrine's [Prex](#) Card and the Citrine's Last Wish Factory [Captura](#) Scene from [Otak](#) on the [Necralisk, Deimos](#).

Crystal Fragments are obtained from:

- Collecting 50 Citrine's Remnants awards 5 fragments (7 on [The Steel Path](#)), cycling between the two types.
- Completing a rotation awards 10 fragments (15 on [The Steel Path](#)).

Notes

- Belric's and Rania's Crystals can be scanned into the [Codex](#) via [Codex Scanners](#) or [Synthesis Scanners](#). A minimum of 3 scans each reveals [lore](#) behind them and their ties to Citrine.
- [Belric Crystal Fragments](#) and [Rania Crystal Fragments](#) are **not** affected by [Resource Boosters](#) or [Smeeta Kavat's Charm](#).

Tips

- Citrine's Remnants/Vosphene Glyphs can appear on the minimap as a lootable item via [Loot Radar](#).
- Because the mission runs on a time limit rather than needing to kill all enemies to pass a wave, players only need to hold off enemies from destroying the defense targets. Thus, abilities that [Slow down enemies](#) are no longer detrimental to mission time, unlike with standard Defense. However, stacking such abilities excessively can negatively impact the squad's kill count and by extension the spawn rate of Citrine's Remnants/Vosphene Glyphs.
- [Titania's Razorwing](#) excels at gathering Remnants and Glyphs.
- Remnants and Glyphs spawn in abundance in the Void tunnel during the 30 second downtime between waves.
 - Collecting enough Remnants during the downtime is recommended as both the Overshields and the Prismatic Ward/Chyrinka Pillar will be applied to the current defense target as soon as the wave begins.

Trivia

- The Corpus Defense tileset uses a retired [Corpus Ship](#) tileset, previously used on [Xini](#) when it was a Defense mission.
- [Orowyrms](#) can occasionally be seen passing through the Void tunnel.
- Tyl Regor mentions the tubemen, but the Grineer forces involved are Arid Grineer rather than the Drekar forces Regor associates with. [One of Regor's lines](#) when a new Grineer wave starts has him admonishing [Lech Kril](#) for ignoring the Tenno's presence on Mars, threatening to withhold any useful genes he finds if Kril does not take responsibility.

The following changes were made based on feedback received from players about the difficulty of Mirror Defense missions in Deep Archimedeia, but they apply across Warframe.

- Made the following changes to The Hollow Vein:
 - Greatly reduced how often it hits Defense targets with its ranged laser attack.

1. "Mirror Defence was designed to allow healing, grant overshields and provide active protection with the Prismatic Ward all through collecting Citrine's Remnants instead of relying on Warframe and Weapon abilities." - [Hotfix 32.3.2](#) (2023-02-16) patch notes
