Tenet envoy not in the same power band as the other aoe primaries? I haven't heard too much about the kuva Tonkor either but am yet to get either.

It's not quite AOE, but I've been rocking the ocucor with that nightwave mod. I've been running a viral/heat build with a Cascadia flare arcane. It melts everything in front of you. It slows down around lvl 200 on SP. It's nice.

I see no Tenet Envoy or Tenet Arce Plasmore here, so all af you miss some of The best primaries in The game. And where is The incarnon furis? Puts almost all secondaries in their place.
