REGULATORS PRIME BUILDS

BUILDS BY NINJASE

Mesa's Arsenal | Regulators (Corrosive Heat Anti-Armor and other Variants)

This is best used in combination with Nourish on Mesa, since Nourish provides Viral damage, and is good for both Grineer

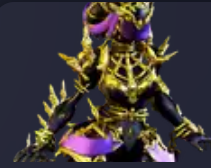

https://overframe.gg/build/211174/regulators-prime/mesas-arsenal-regulators-corrosive-heat-anti-armor-and-other-variants/2/5

MOD BREAKDOWN

- Galvanized Diffusion - mandatory multishot multiplies damage by up to 3.3x
- Galvanized Shot - this gives +120% damage per status which is additive to the damage bonus provided by ability strength. Having a maximum of 5 statuses (IPS + heat + viral) after a few seconds of shooting gives +600% dmg, which is approximately a 69% DPS boost. Having just 3 status will allow Galv Shot to be better than Anemic Agility or another element mod.
- Primed Pistol Gambit - mandatory CC
- Primed Target Cracker - Mandatory CD
- Lethal Torrent - gives more ire rate and multishot.
- Primed Convulsion + Pathogen Rounds - gives raw corrosive damage which has +50% bonus against Grineer and also partially strips armor up to 80% at 10 stacks.
- Primed Heated Charge - gives raw Heat damage which contributes to total damage, and heat procs can also strip a further 50% armor which is multiplicative with corrosive (giving 90% maximum possible partial strip).

Flexible Options:

- Lethal Torrent vs Primed Expel :
Lethal Torrent is 21% better than Primed Expel if you DON'T OWN ARCAN VELOCITY but only 3-5% worse about than Primed Expel WITH Arcane Velocity. Note Lethal Torrent is effective against acolytes and thrax while Expel mods do not affect them. If you want to min-max Regulator damage against a specific faction eg in disruption, then you can use Primed Expel over Lethal Torrent.
Lethal Torrent is always better than NON-PRIMED EXPEL.
Lethal Torrent is better than Galvanized Shot above 335% ability strength when accounting for 5 status effects.
- [Anemic Agility] if you don't own [Lethal Torrent] or Galv Shot.
Galv Shot is 21% better than [Anemic Agility]
Lethal Torrent is 7% better than Anemic Agility WITH Velocity but only <1% worse than Anemic Agility WITHOUT velocity.
- [Creeping Bullseye] if you don't own Primed Pistol Gambit.
Primed Pistol Gambit is 4% better than Creeping Bullseye (with velocity) and 10% better without velocity.

[Anemic Agility], 16% worse than [Lethal Torrent].

Variants:

For Corpus : Switch [Primed Convulsion] for [Pistol Pestilence] and [Primed Heated Charge] to [Anemic Agility] for pure Toxin (Bypasses shields)

For Murmur: Swap [Pathogen Rounds] for [Accelerated Isotope] to make pure Radiation
