You can rename weapons

[Tool/Guide](#)

I've run into a lot of people who don't know this but yes, you can rename any weapon for 15p. Melee weapons at Hok and ranged weapons with Zuud

I told my friends about this and got brushed off. Guarantee if any of them saw this, they'd come to me going "OH MY GOSH, DID YOU HEAR!?" before renaming their shotgun something like SmackAb-tch

I kind of wish there was a way I could see the default names still, whether just that or in addition. I've had some teammates who completely tear through enemies and I can't tell what the weapon is, but they refuse to respond to my query on what they're using. Doesn't help when the weapon is named "LOLSTICK" or "Mayhem."

I recently contemplated renaming my Sibel into Tonpop prime, but sadly I stopped using it shortly before that

I just wish there were an option to rename Archguns too. I've got a Kuva Grattler I wanted to name "Proppa Dakka".

Can also rename pets through Legs on Fortuna or Brother on deamos.

I have set ups that are all named "zenith" just to mess with people. Or also one's where my stuff is all named after aura mods, it gets a giggle outta some people, sure does for me.

Really messes up with linking things if you have a ton of things named the same thing.
