General

Dante served as scribe and historian who worked with [Entrati](#). Additionally, he was the main chronicler of the **Leverian**, a little-known museum named after [Drusus Leverian](#), it's curator. A student of history and avid seeker of knowledge, Dante soon became close friends with both Drusus and [Albrecht Entrati's](#) assistant, **Loid**.

Due to his nature as a [Warframe](#), Dante was unable to speak with a conventional voice;

interest with bones and the dead.^[2] He even went on to publish some of the finest works detailing ancient [Earth](#) archaeology, something that was considered impossible for a mere Warframe to accomplish.^[3]

Dante was one of the few warframes who didn't immediately go mad and join in the Warframe Insurrection. However, he became a wanted fugitive.^[4]

Dante's Investigation

When Albrecht disappeared, Dante became eager to unveil the mystery behind the disappearance. Despite promising Drusus otherwise, he ventured into [Albrecht's Laboratories](#) against his friend's wishes. Within the hauntingly silent halls, Dante encountered the lab's malfunctioning [Necramechs](#); all acting violent and chanting in eldritch [Voidtongue](#).

As Drusus watched, the wrong-tongued dialect began to worm into Dante's mind, tempting him with his one weakness; the promise of knowledge. He had discovered **The Book**, an unknown, unearthly tome of knowledge that was laid as a trap by [The Indifference](#) as an attempt to seize control of him. As Dante struggled to resist its knowledge, he heard his dear friend say, *"Dante, what you have found can never be brought forth. [Parvos](#) must never know of this."*

Thus, Dante gave up, allowing himself to succumb to the Book's influence and take his life. However, the Book and the hellish words within did not allow Dante to die, and instead altered the very fabric of who the Warframe was. Transported to stars unknown, that wrong-tongued Voice now murmurs endlessly within his head, longing to be known, to exist, and to survive.

1. *"Warframes cannot speak, as a rule. Their creator decided they should only scream, or roar, or howl. Dante spoke through his writing, and his voice was beautiful."* - [Loid](#)
2. *"Dante shared the Entrati fascination with bones. I was content to let him explore our old burial vaults and ossuaries, but his request to examine my own replicated skull was a step too far. Otherwise his manners were impeccable."* - Loid
3. *"Dante's works on ancient Earth archaeology were some of the finest in the field. Many back then refused to accept a mere warframe could have written them."* - Loid
4. *"I remember when we learned of the Warframe insurrections. Their madness, savage and sudden, justifying all the Orokin fear. All their heroic deeds were forgotten in an instant. Those like Dante who had yet to succumb became fugitives. To shelter them meant death - or glassing."* - Loid
