Jellyfish Buddy | Priming + DPS + Orb generation

by ninjase — last updated 9 days ago

3

0

Diriga shocks nearby enemies, and picks off distant threats, utilizing the Vulklok sniper rifle and the 'Calculated Shot', 'Arc Coil' and 'Electro Pulse' precepts.

Jellyfish Buddy | Priming + DPS + Orb generation

Use with Helstrum for maximum AOE priming:

Viral priming (best for melee and dps buffing):

<https://overframe.gg/build/547234/helstrum/helstrum-primer-viral-heat-primer/>

Gas/electric primer (best for synth deconstruct tagging):

<https://overframe.gg/build/547232/helstrum/helstrum-primer-gas-electric-tagging-for-energy-generator-synth-deconstruct/>

For heat inherit:

<https://overframe.gg/build/547236/helstrum/helstrum-primer-heat-inherit/>

Use with Verglas for some DPS:

<https://overframe.gg/build/234877/verglas/afk-steel-path-melter-companion-dps-heat-viral-verglas/>

Use Prime Laser Rifle with riven for maximum statuses and tenacious bond: <https://overframe.gg/build/722838/>

Arc Coil - zaps 7 enemies in 10m with electric damage/status, which can carry other elements via Manifold Bond. Seems to have little or no cooldown.

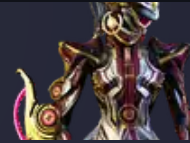

Duplex Bond - every 100 energy spawns a clone, kills by clone can drop energy orbs and clones also contribute to priming

Synth Deconstruct - enemies tagged by the 10m AOE of Arc Coil can drop health orbs, which can be converted to energy by equilibrium

Manifold bond - allows [Arc Coil] to also apply any statuses from the weapon (e.g. viral + heat from [Verglas] equipped), giving AOE viral and [Condition Overload] priming. Additionally, killing enemies afflicted by 3 statuses or more reduce cooldown of guardian by 5s, meaning after just 6 kills, Guardian is ready to refresh shield gate.

Contagious Bond - enemies killed by verglas will spread all status effects on that enemy

Momentous Bond - Killing eximus grants a random element, which can be subsequently spread by [Arc Coil] + manifold and [Contagious Bond]. Additionally, whenever your sentinel dies, killing an eximus reduces recovery time.

Mystic Bond - OPTIONAL can give nearly constant free casts with Diriga + Arc Coil but then prevents shield gating that relies on Brief respite etc.

Tenacious Bond - OPTIONAL but requires [Vulklok], [Vulcax] or [Prime Laser Rifle] with riven, gives flat 1.2x crit multiplier.
