[Question/Request](#)

It would be very lame if they were platinum only

nothing gameplay changing in the game is platinum exclusive and it will never be, that's how the game always worked and it'll always work like that

mirror defense

*How to Acquire Tome Mods:*

Tome Mods are available to earn via Rotation C of the Mirror Defense node on Deimos (Munio).

The **Essential Tome Mod Bundle**, which contains all of the above Tome Mods, is also available for purchase in the in-game Market (after you have completed the Whispers in the Walls Quest).

Just wait, there's no rewards for being first to get something (especially since half of them hardly pretend to be working)

Agreed, these people just want everything handled to them on a silver platter on day 1

Rotation C mirror defence, think mod pack is less painful lmao

5% RotC really makes you reconsider how much your time is worth.

IMO best seems to be mod pack, and any extra you get while farming mirror defense drops go on the market to make your plat back.

Don't worry. They're not plat only. You can get them playing the new mirror defense mission, specifically from rotation C.
