## Notes

- Melee kills tend to apply ~ 6  **Blast** and  **Impact** procs, though amount varies up to the limit of 10 stacks.
- The effect has line of sight and does not go through walls.
- Kills from melee status damage-over-time trigger this effect.
- Kills by **Exalted Weapons** or pseudo-exalted abilities like  **Landslide** do not trigger this effect.
- Range mods such as  **Reach** do not affect the 15m radius.
- This effect alerts affected enemies, making this mod unsuitable for stealth play.
- The +45% Fire Rate to Secondary Weapons applies to **Mesa's Regulators** when equipped.
- The +45% Fire Rate to Secondary Weapons does NOT apply to **Titania's Dex Pixia** when equipped.

## Trivia

- Prior to [Update 31.1](#) (2022-02-09), the "knockdown" term written on the mod is an effect of the old pre-[Update 27.2](#) (2020-03-05) [Blast](#) proc, where enemies in a radius would be knocked down. The term was replaced by a stagger effect to restore the mod's original functionality.

## Patch History

[Update 32.0](#) (2022-09-07)

### Mod Rebalancing and Changes

We were also seeing an influx of players using the Furax with the **Amalgam Furax Body Count** mod as AoE weapons have become more and more prevalent. So we removed its +20% Blast Radius on Specialized Launchers and replaced it with +45% Fire Rate for Secondary Weapons.
