CODEX

Take charge with the Saint of Altra. Gauss is fast, deals high damage, and has strong survivability. Movement charges his powerful battery, so never stop moving.

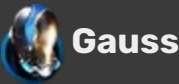

Charging his abilities with every step, he's streamlined for speed. This is Gauss, the runner, the rapid.

If the battle seems out of control, Tenno, you're not going fast enough.

Release Date: August 29th, 2019

Engines ready for ignition. Coolant circulation systems online. Revved into kinetic overdrive, the speedster **Gauss** leaves his competition amidst the dust. Accelerate and race across vast landscapes or seas. Recharge power from hostile strikes and reduce the force of their impact. Flash-freeze enemies dead in their tracks, then spontaneously combust his foes, as he paves the path to a swift victory. Gauss kickstarted in [Update 25.7](#) (2019-08-29): Saint of Altra.

Description ^

Take charge with the Saint of Altra. Gauss is fast, deals high damage, and has strong survivability. Movement charges his powerful battery, so never stop moving.

Passive ^

Moving generates an electrical current that fills Gauss' battery. Shields recharge up to 120% faster while the Recharge Delay is up to 80% shorter, based on the battery level.

Abilities ^

1st Ability [Mach Rush](#)

2nd Ability [Kinetic Plating](#)

3rd Ability [Thermal Sunder](#)

4th Ability [Redline](#)

Acquisition

Gauss's main blueprint can be purchased from the [Market](#). Gauss's component blueprints drop from Tier C [Disruption](#) on Kappa, [Sedna](#). Each component has a 7.84% drop chance.

Item	Source	Chance	Expected	Nearly Guaranteed
Chassis	Sedna	7.84%	~ 12 C	84 ± 28 C
Blueprint	Disruption / C		Rotations	Rotations
Systems	Sedna	7.84%	~ 12 C	84 ± 28 C

Item	Source	Chance	Expected	Nearly Guaranteed
Neuroptics Blueprint	Sedna Disruption / C	7.84%	~ 12 C Rotations	84 ± 28 C Rotations

All drop rates data is obtained from [DE's official drop tables \(https://warframe.com/droptables\)](https://warframe.com/droptables). See [Mission Rewards#Standard Missions](#) for definitions on reward table rotations.

Altra was an ancient tower-fortress on [Ceres](#) owned by the [Orokin](#). An insurgency occurred there, resulting in the Orokin inhabitants being thrown from the tower and succumbing to the landmines below. The Orokin demanded its recapture, but the tower's defenses proved to be too difficult for their [Dax](#) battalions to pass. As backup, Gauss was then called in to quell the insurgency. With his immense speed, he blitzed through the minefield and into the tower and was able to reclaim it. His victory earned him the title: **The Saint of Altra**.

Notes

- When Gauss wields his [Signature Weapons](#):
 - [Acceltra](#)/[Acceltra Prime](#): **+50% Reload Speed** while [Sprinting](#).
 - [Akarius](#)/[Akarius Prime](#): **+100% Reload Speed** while [Sprinting](#).
- Gauss possesses the second fastest [Sprint Speed](#) of all Warframes at 1.4, behind [Gauss Prime](#). This replaces [Loki](#)/[Loki Prime](#)'s [Sprint Speed](#) of 1.25.
 - With a maxed [Rush](#), [Amalgam Serration](#), [Armored Agility](#), [Speed Drift](#), [Sprint Boost](#), and [Coaction Drift](#) his sprint speed can be boosted up to 2.8257, and with a full squad set up bringing it up to 3.6589.
- Due to the blueprints' ingredients, players must be at both **Ostron Rank 4 - Surah** and **Solaris United Rank 4 - Cove**, at the minimum, in order to acquire rare gem blueprints from the factions.
 - However, while [Operation: Plague Star](#) is active, players can directly purchase [Heart Nyth](#) and [Radian Sentirum](#) from [Operational Supply](#) and require only the Ostron **Rank 3 - Trusted** for the [Star Crimzian](#) blueprint.
 - Alternatively, the crafted gems can be acquired from [Trading](#) with other players, completely bypassing the rank requirement.

Trivia

- Gauss is named after [Carl Friedrich Gauß](#), the German mathematician and physicist who made [significant contributions](#) to many fields in mathematics and sciences, most notably in Electromagnetism, Differential Geometry, Algebra, and Statistics.
- The term [Redline](#) is an automotive term that refers to the maximum revolutions-

own components. It can also be used as a verb to refer to running an engine at or beyond its maximum safe RPM (e.g. "to redline").

- The name of the [Gauss Mag Helmet](#), his alternate helmet, is a deliberate reversal of one of [Mag's](#) alternate helmets, the [Mag Gauss Helmet](#).
- Gauss is the 41st unique Warframe to be released.
- Unlike several other Warframes that require exclusive resources from only one of the [Landscapes](#), Gauss's Chassis and Systems require resources from [Plains of Eidolon](#) and [Orb Vallis](#), respectively.
- Gauss is the first Warframe whose component blueprints are acquired from [Disruption](#).
- Gauss is the first Warframe to be featured in the [Leverian](#).
 - The Leverian displays Gauss's airfoil system as a separate part.
 - The [Nightwave](#) act "Patron", in which the player must donate to the Leverian, features Gauss as its icon.
- Gauss was planned to be released simultaneously with his best friend [Grendel](#), but the latter required more time for development. As a nod to their friendship, Grendel appears in Gauss's profile video riding a [K-Drive](#) while Gauss sprints beside him. Gauss also appears in Grendel's profile video to receive benefits from [Nourish](#) and a mention in Grendel's Leverian exhibit.
- Gauss is the fourth Warframe to use another type of ability resource besides Energy, after [Nidus](#), [Baruuk](#), and [Hildryn](#). In Gauss' case, he uses his Electrokinetic Battery.
 - However, unlike the other Warframes, all of Gauss's Abilities still require energy to activate.
- While using Mach Rush, Gauss can be heard "breathing" heavily. If Redline is active at the same time, his breaths become quicker and louder.
- In Gauss's profile video, [Lotus](#) pronounces his name as "goss" (/ɡɒs/, to rhyme with "moss"), as opposed to the usual pronunciation of "gouse" (/gaʊs/, to rhyme with "house"). Unlike [Titania](#) this pronunciation choice is inconsistent as [Drusus](#) uses the latter option.
