## Notes

- **High Voltage** is additive with similar mods. For example, a [Snipetron](#) with a max rank **High Voltage** and [Rifle Aptitude](#) will have a  $12\% \times (1 + 60\% + 90\%) = 30\%$  status chance.
- This mod can be combined with [Rime Rounds](#), [Thermite Rounds](#) and [Malignant Force](#) to achieve a combined status chance bonus of 240%. With [Rifle Aptitude](#) and [Hammer Shot](#), this bonus can be increased to 410%, more than quintupling the weapon's status chance.
- With the four damage + status chance mods you can reach 100% status chance with any primaries that have a base status chance of 30% or higher.

## Trivia

### *Historical acquisition methods:*

- This mod was originally acquired by scoring over 250 points in the [Tethra's Doom](#) event.
- This mod and the other Tethra's Doom mods were made available again during [Operation: Mutalist Incursions](#) as a drop in the unlockable Survival mission.<sup>[10]</sup>
