## CODEX

Albrecht's Void experiments revealed the true destructive potential of this wrist-mounted cannon. In Incarnon Form, it emits a beam that gradually focuses as it siphons energy from foes, culminating in a final blast.

Onos is an  Entrati wrist-mounted cannon turned into an Incarnon weapon by Albrecht Entrati. Normally capable of shooting fully automatic  Puncture projectiles, its Incarnon Form transforms into a charging Arm Cannon that primes a  Radiation wave to discharge  Heat lasers.

## Characteristics

- This weapon deals pure ⚔ Puncture damage in its normal form and primarily 🔥 Heat damage in its Incarnon Form.
- Once Incarnon Form is unlocked, landing **headshots** fill the Incarnon Transmutation gauge that transforms the Onos into a charging Arm Cannon via the **Alternate Fire** key.
  - The gauge reaches full charge after **12** headshots, and does not require a full gauge to activate. It will also emit a small, ghost-like wail when the gauge is completely full.
  - Additional shots from **Multishot** count as separate headshots

damage that narrows the longer the charge is held. Upon a full charge, it releases a beam that deals  **Heat** damage and status with **5** meter **Punch Through** and explodes in a **3** meter radius.

- Initial hit and explosion apply status separately.
- Explosion does not need direct line of sight to deal damage and will penetrate walls.
- Instead of drawing from the Onos's ammo reserves, Incarnon Form gives the Onos a unique "magazine" from **30** rounds per charge to a maximum of **350**, indicated by the regular ammo HUD and a bar underneath the reticle.
- If the Alternate Fire key is pressed whether or not the Incarnon magazine is fully expended, the Onos is transformed back into its default state, however this will also fully expend any remaining

# Acquisition

Onos's blueprint can be obtained from [Disruption Armatus](#) on [Deimos](#), whose access requires completion of [The Deadlock Protocol](#) and [Whispers in the Walls](#), from [Rotation B](#). Alternatively it can be purchased from [Loid](#) in [Sanctum Anatomica](#) for 360 [Vessel Capillaries](#) dropped by Disruption Armatus [Demolishers](#) in quantities of 2-3 (5-7 on [The Steel Path](#)).

## Notes

- [Yareli](#) is unable to activate nor use the Onos' Incarnon Form if she is mounted on [Merulina](#).
- Attempting to activate the Onos' Incarnon Form while dismounted, then mounting Merulina immediately afterwards, will force the Onos to revert back to its default form.
  - This causes a bug with Onos' firing SFX, it will not play.
  - The weapon mode indicator at the bottom right will display that the weapon is in Incarnon Form, but this is a bug, as the Onos is actually in

- It is not known if this specific interaction is intended, or a bug.
- This conflict does not apply if using [Loyal Merulina](#).

## Evolutions

- When newly acquired from the [Foundry](#), players must acquire **100** kills with the Onos in order to gain access to its Incarnon transformation. The following Evolution tiers, their requirements for unlocking them, and their related perks, are shown below:
  - Each challenge additionally grants 5,000 [affinity](#) to the weapon, affected by [Affinity Boosters](#).

### Evolution I

- *Unlock Challenge:* Kill **100** enemies with the Onos.
- Headshots charge Incarnon Transmutation; Alt Fire transmutes. Switching back will expend any remaining charge.
  - Incarnon Form changes the weapon from an automatic hand cannon to charging [Arm-Cannon](#). Holding down the trigger releases a wide beam that inflicts [Radiation](#) damage. The beam narrows and increases in damage the longer the charge is held. Once fully charged, the Arm Cannon releases a powerful [Heat](#) shot with guaranteed status, **5** meter [Punch Through](#), and explodes in a 3 meter radius.
    - Damage scales linearly up to **3x** damage. Resets after releasing the trigger or firing a charged shot.
  - Incarnon Form uses Arm-Cannon animations. Contrary to its appearance, the Onos is still considered a Secondary weapon.
- Mode switching is **not** instantaneous and has an animation equal to the weapon's [reload speed](#).
- Incarnon Form is activated by filling the Incarnon Transmutation gauge that appears under the reticule by achieving [headshots](#) and then pressing the [Alternate Fire](#) button. **12** headshots will completely fill the gauge. A full gauge is not required to activate Incarnon Form.

- Headshots on corpses do **not** build charges.
- Headshots must do damage to the enemy to build charges. Invulnerable targets such as [Well of Life](#) and [Lantern](#) targets do **not** build charges.
- Individual [Multishot](#) bullets can build charges.
- Instead of drawing ammunition from its reserves, the Onos's Incarnon Form uses a separate "magazine" with each charge producing **30** rounds to a maximum of **350**. Once all ammunition is expended, the Onos reverts to its normal form.
  - Onos consumes **1** round per tick of damage, then **50** rounds upon releasing the [Heat](#) beam. The charged beam will deal full damage even if there's less than 50 charges remaining.
  - Incarnon Form's magazine is **not** affected by mods.
  - Incarnon Form is **not** affected by [Ammo Efficiency](#) (such as [Energized Munitions](#)).
  - Charges and Incarnon Form persists through all activities, such as holstering, [bleedout](#), or being [disarmed](#). However, charges and Incarnon Form are removed upon [death](#).
