During the [Orokin](#) Era, there was a school of assassination called **the Scoria**. Each of its members bore a black jewel imprinted between their eyes and treated Ash as their patron saint.

At one point during the Era, the school had two noteworthy students: brothers **Dom** and **Pilio DeNas**. Dom possessed great skill while Pilio was not as gifted, lacking his brother's grace and clarity, but one day Dom was captured by his target. As capture by the enemy was considered an unforgivable sin to the Scoria, Pilio was given the task to assassinate his brother, a mission that would be overseen by Ash himself. However, Pilio would be torn from killing his brother, were he to succeed, or being killed by his idol, were he to fail.

The pair was dispatched on a tower located in [Martialis](#), [Mars](#), but Pilio failed to overcome the fear that his task wrought, leaving Ash to slay the fifty guardsmen with his [Causta Bow](#) and [Dual Kamas](#). Ash led Pilio to their target's chambers, discovering Dom in civilian clothes, casually sharing a glass of wine with a middle-aged mustachioed man, his eyes both sad and kind. The gem between Dom's eyes was removed, signifying that he had betrayed the Scoria. The man gladly called Dom and Pilio his sons before coming to Dom's defense and brandishing a sidearm, which was quickly disarmed by Ash's [Blade Storm](#).

Urged by Dom, a confused Pilio questioned Ash, who responded by sinking his blade into Pilio's gem. The gem was suppressing the memories of Dom and Pilio **DeNas**, who were stolen by the Scoria. The mustachioed man, **Lio DeNas**, was stealing back his sons. Ash had saved the boy from his turmoil and allowed the DeNas family to escape from Mars forever.

It is unknown why Ash went against the school's doctrine. However, it is known that not even the Scoria's senior members were spared from their idol during [The Collapse](#).

Trivia

- Ash was originally named Smoke, and before that, simply Ninja.^[1] He is still referred to as Ninja internally in the game files.
- As seen from concept art, Ash was initially slated to be a female Warframe.
- Ash was the first Warframe that had innate physical weapons associated with his frame, in this case, the hidden blades he uses in his Blade Storm ability. The second frame with this innate physical weapon was [Mesa](#) and her Regulator pistols she uses in her [Peacemaker](#) ability.
- Ash has smoke constantly venting from his left arm.

Ash's concept art.
