# Storage Container

[!\[\]\(003082e50e3009141f59bd5df831749f\_img.jpg\) 181](#) [!\[\]\(f439ede8735757e3190eab35e168f1de\_img.jpg\) EDIT](#)

**Storage Containers** are breakable objects appearing in all mission types and can drop [pickups](#) such as [credits](#), [ammo](#), [resources](#), and even [mods](#).

## Variations

Multiple variations of storage containers can also spawn once per mission. They are different in appearance (not to be confused with holiday/event themed containers) and give out a wide range of awards, such as trinkets of credits, ammo, resources, mods, faction parts or even a [Forma](#).

## Common Storage Containers

The most common variation of all Storage Containers and the most abundant in numbers. They are most often found in large numbers of up to 7 at once inside a vacant high-value hotspot.

When broken, they typically contain only one of the following:

- A small / medium trinkets of Credits.
- A random type of ammo magazine.

Upcoming Games!

[WARFRAME Wiki](#)

Containers found in Treasure Rooms, side rooms and hidden compartments throughout the [Orokin Void](#) have a chance to drop a mod from the [Treasure Rooms](#) mod list.

As for now on the [Cambion Drift](#) there are Ralizor Infested Cysts which can contain common mining, fishing and general [Deimos](#) resources.

There is a small chance for the containers to not yield any items.

mission.

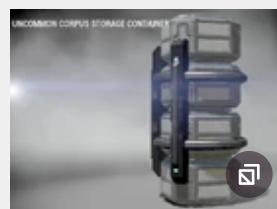

On Deimos there are Sagiant Entrati Caskets which can generally be found around [Requiem Obelisks](#) in the [Cambion Drift](#). Spitia Infested Cysts occur inside Cambion Drift caves only.

When broken, they typically contain several of these drops at once:

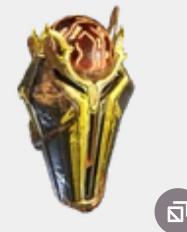

- A small/medium trinkets of Credits.
- Few random types of ammo magazines.
- [Energy Orb](#) / [Health Orb](#) / [Affinity Orb](#).
-  [Nav Coordinates](#).
- [Resources](#) of the respective planet.

## Rare Storage Containers

A rare variation of the Storage Containers, their appearance is similar to the standard storage container, but with a golden glow and a humming noise identical to that of the [Sabotage Resource Caches](#).

-  ([download](#), [history](#))

While they lack the distinct humming sound of other rare containers, Auroron Entrati Caskets are nevertheless rare and can be found either as a rare spawn in the [Cambion Drift](#) on Deimos, or as a guaranteed spawn within the vaults of [Isolation Vault](#) Bounties.

With the exception of the Auroron Entrati Casket, all containers usually contain:

- [Mantis Engines](#) (Grineer), [Mantis Fuselage](#) (Corpus), or [Mantis Avionics](#) (Orokin).
- A [Detonite Injector](#) (Grineer), [Fieldron](#) (Corpus), or [Forma](#) (Orokin, Zariman).
- 80 [Endo](#).
- A 30-minute [Affinity](#) or [Credit Booster](#).
- Occasionally a random weapon blueprint, including [Research](#) exclusive blueprints.
- Credit quantity of around 700 to 1,200.

Each of the container variations (Grineer, Corpus, Orokin, Entrati, Zariman, Albrecht's Laboratories) has their own entry in the [Codex](#).

## Reinforced Storage Containers

Reinforced containers are the rarest of the Storage Containers and have their own models with significantly bulkier plating than the standard variants, plus the golden glow and humming sound of the rare storage container. They require more damage to break than any other container. The models also reflect this with sections breaking off as the container is damaged.

When broken, they usually contain:

## Forgotten Grineer Storage Containers

Forgotten Grineer Storage Containers are rare containers that look almost identical to the Rare Storage Containers with some moss growing on it. They still produce the humming sound and glow of a Rare Storage Container. They are currently only found on Earth.

When broken, they contain:

This container has its own entry in the [Codex](#).

Forgotten [Grineer](#)  
Storage Container

## Resource Deposits

**Resource Deposits** are special containers that hold only a single type of [resource](#). These deposits have a unique name and appearance matching the resource that they contain, and can only be found in the same areas as their associated resource. The rarity of deposits usually corresponds to the rarity of the contained resource; for example, Alloy Drums will be more common than Neural Arrays. Rare resource deposits can drop between **1 to 3** of the associated rare resource.

The various types of Resource Deposits include:

Rubedo Formation  
(45-75x [Rubedo](#))

Compacted Salvage  
(225-450x [Salvage](#))

Each deposit has to be scanned five times to complete codex entry (currently, unscanned deposits will not be shown in Codex).

## Farming Tips

Join the Quest! Share Your Views on  
Upcoming Games!

*This information should be viewed as advice  
and is not a guarantee. Results may vary.*

WARFRAME Wiki

- In any given mission, there is a low chance of a single Rare Storage Container and a lower chance of a single Reinforced Storage Container spawning somewhere in the map. If one spawns, it will randomly select a vacant high-value hotspot, similar to that of a [Syndicate Medallion](#), and spawn in it.
- [Golden Instinct](#) allows for a convenient way of locating rare stuff around a tileset, including those of the rare and reinforced containers. It is worth noting that an **opened** Rare/Reinforced Storage Container will **not** trigger Golden Instinct.
- Special mission types like Alerts and Syndicate missions have a higher than average chance of spawning rare and reinforced containers.
- [Dark Sectors](#) seem to have an increased chance to spawn Rare and Reinforced Containers.
- Some abilities can break containers:
  - [Limbo's Cataclysm](#)
  - [Equinox's Mend & Maim](#): Cast Maim, kill enemies to charge it, then release Maim for a nuke that can break containers
  - [Chroma's Heat or Toxin Elemental Ward](#)
  - [Yareli's Aquablades](#)
  - [Revenant's Danse Macabre](#)
  - [Xaku's The Vast Untime](#) can break containers at very long range
  - [Gara's Splinter Storm](#)
  - [Carrier's exclusive mod Looter](#)
- It is helpful to go into your Options menu, under the Audio Tab, and make sure your "Sound Effects Volume" is at max while all other volume controls being down. Rare Containers and Caches make a humming noise and this will make them easier to find.

Last updated: [Update 27.2](#) (2020-03-05)

## Notes

- When affected by [Mirage's Sleight of Hand](#) ability, the container will blind enemies in a radius around the container when broken, but only if the container has not already been looted.
- All storage containers in Empyrean missions contain 15 endo regardless of level, making it a decent source of early game endo especially when paired with [Master Thief](#) and/or [Scavenge](#).
  - Rare containers will have an increased amount of endo (around 165).

## Trivia

- Before the [Boar Prime](#) was moved into the [Prime Vault](#), Reinforced Orokin Containers used to drop its blueprint. There was a brief time after it was moved into the Prime Vault that it still dropped from the containers.
- [Darvo](#) has a reinforced Orokin container in the back of his store.

## Bugs

- [Dying](#) and reviving, after receiving boosters from the Rare Storage Containers, will remove the accumulated duration of the boosters gained from the containers.
