[Update 34.0](#) (2023-10-18)

[Flawed Mod Storage Site](#)

After posting our initial Dev Workshop outlining the Flawed Mods removal, many players expressed their desire to keep them for a variety of reasons. Luckily for those Tenno, we managed to find the original (disposal) storage site of the Flawed Mods and have made them available to players once more.

Seek out the storage site near Cressa Tel **in Iron Wake on Earth** to purchase them anew. We did our best to price these rare finds fairly, keeping in mind that these are now collector’s items of course, so they can be yours for the cost of a few
