Overguard

[72](#) [EDIT](#)

Overguard grants additional Health protection and Knockdown immunity as long as an amount remains.

—In-Game Description

Overguard is a special health buffer that grants immunity to most crowd control effects.

Mechanics

Overguard is an additional layer of defense that protects [Health](#) and/or [Shields](#) from being damaged. It is neutral to all damage types except for a **50%** vulnerability from  [Void](#) damage, though  [Magnetic](#) status effects can amplify all damage dealt to Overguard. [Hounds](#) equipped with  [Null Audit](#) can remove **50%** of an [Eximus's](#) Overguard.  [Secondary Fortifier](#) also deals increased damage to Overguard.

Overguard is **not** affected by [Damage Reduction](#) from armor, [Damage type resistance](#) effects such as  [Adaptation](#), or Damage Reduction abilities such as  [Splinter Storm](#). However, abilities or effects with [Damage Redirection](#), such as  [Link](#),  [Warding Halo](#), or  [Shield of Shadows](#) will apply their effect to Overguard. [Rolling](#) will also apply its damage reduction to Overguard. Overguard does not block [debuffs](#) such as [Damage Vulnerability](#) or shield/armor removal.

Player

On players, Overguard will negate all [Status Effects](#), including  [Stagger](#) and  [Knockdown](#). It additionally has a **0.5** second invulnerability gate when fully depleted, preventing any excess damage from leaking into their shield or health pool. Even enemy crowd control effects that still affect players with  [Primed Sure Footed](#) (such as fire waves by Arson Eximus) will be ignored with Overguard. However, grapple hooks from enemies such as a [Scorpion](#) will still interrupt the player for a moment and pull

Only Warframes and [Companions](#) are able to receive Overguard. Abilities that grant Overguard do **not** apply to [Specters](#), [Defense Objects](#), or other allied NPCs.

If the user has no [Shields](#) active ( [Inaros](#) and  [Nidus](#) by default), [Energy](#) conversion from damage to [Health](#) effects ( [Rage](#),  [Hunter Adrenaline](#),  [Necromech Rage](#), and  [Kinetic Diversion](#)) will allow damage to Overguard granted from an ally to be converted to energy.

Enemy

On enemies, crowd control effects that units protected by Overguard will ignore include  [Stagger](#),  [Knockdown](#),  [Stun](#),  [Mind Control](#),  [Confusion](#) (including  [Radiation](#) procs),  [Slow](#),  [Ragdoll](#),  [Blind](#), and  [Lifted](#), and can only receive a maximum of 4  [Cold](#) procs. Once Overguard is removed, the unit will receive crowd control and status effects as per normal.

Overguard is independent of [enemy health and shield scaling](#). Overguard will scale by level but will be the same amount across all Eximus enemy types.

Because of their immunity to crowd control, Overguarded enemies are a threat that should be prioritized; crowd control will still affect their allies and they will still target confused and mind controlled units which helps level the playing field. In the case of [Ancient Healers](#) and [The Severed Warden](#), which provide Overguard to their own allies but not themselves while alive, the Ancient will still receive crowd control as normal and should be targeted instead. Shooting off a [Nox](#)'s helmet will immediately remove their Overguard.

Scaling

This section is transcluded from [Enemy Level Scaling § Overguard](#). To change it, please [edit the transcluded page](#).

Overguard is a unique health buffer to Eximus, though normal units can get overguard in unique situations (like after a Overguard Exodamper is destroyed during [Void Armageddon](#)).^[1]

$$f_1(x) = 1 + 0.0015(x - \text{Base Level})^4$$

When Current Level - Base Level < 45

$$f_2(x) = 1 + 260(x - \text{Base Level})^{0.9}$$

When Current Level - Base Level > 50

Stat scaling between 45-50 inclusive is interpolated from the two functions using [smoothstep](#).

$$T(x) = \frac{x - \text{Base Level} - 45}{5}$$

Finding out transition percentage from 45 to 50

$$S_2(x) = \begin{cases} 0, & x - \text{Base Level} < 45 \\ 3(T(x))^2 - 2(T(x))^3, & 45 \leq x - \text{Base Level} \leq 50 \\ 1, & x - \text{Base Level} > 50 \end{cases}$$

Smoothstep transitioning between functions

$$\begin{aligned} \text{Overguard Multiplier} = & [f_1(\text{Current Level}) \times (1 - S_2(\text{Current Level}))] \\ & + [f_2(\text{Current Level}) \times S_2(\text{Current Level})] \end{aligned}$$

Where the Overguard Multiplier is the value that multiplies an enemy's base overguard to its current overguard.

Current overguard scaling at Base Level = 1.

Enemies with Overguard

- All [Eximus](#) except [Archwing](#), [Warden](#), and [Prosecutor](#) Eximus units. Their base Overguard is 12.
- [Ancient Healer](#) - Grants nearby enemies Overguard equal to 9x of the Ancient Healer's health. Cannot provide Overguard to themselves.
- [Archon Amar](#) - In [Archon Hunts](#), gains an extremely small amount of Overguard

the ability.

- [Archon Boreal](#) - In Archon Hunts, gains an extremely small amount of Overguard when protected by his screech. Depleting the Overguard will cancel the ability.
- [Archon Nira](#) - In Archon Hunts, gains an extremely small amount of Overguard when protected by her frontal barrier and toxic field. Depleting the Overguard will cancel the ability.
- [Corpus Cestra Target](#)
- [Corpus Sniper Target](#)
- [Corpus Supra Target](#)
- [Corpus Trencher Target](#)
- [Dax Malleus](#) - Only in [The Undercroft/The Circuit](#).
- [Kuva Trokarian](#)
- [Nox](#) (except [Demolisher Nox](#)) - Breaking the Nox's glass helmet will immediately remove all of their Overguard.
- [The Severed Warden](#) - Grants and continually replenishes nearby enemies with Overguard. Cannot provide Overguard to themselves.
- [Thrax Centurion](#)
- [Thrax Legatus](#)
- [Deep Archimedea](#) ("Bolstered Belligerents" Risk Variable) - All enemies have Overguard equal to 50% of their max health.
- [Void Armageddon](#) - All Grineer and Corpus units receive Overguard upon destroying an Overguard Exodamper for the remainder of the round.

Crowd Control That Bypasses Overguard

- [Cold](#) procs (up to 4 stacks)
- [Void](#) procs bullet effect
- [Loki's](#) [Switch Teleport](#) - will not make enemy disoriented upon teleport
- Effects that [Taunt](#) or have increased [Threat Level](#) (i.e. presence of Overguard will not affect [Enemy Behavior](#)):
 - [Loki's](#) [Decoy](#)
 - [Nyx's](#) [Chaos](#)
 - [Octavia's](#) [Mallet](#)
 - [Titania's](#) [Razorflies](#)
- [Volt's](#) [Discharge](#) will stop enemy movement, but will not affect their actions.
- [Dax](#) enemies ([Dax Arcus](#), [Dax Equitem](#), [Dax Gladius](#), [Dax Herald](#), and [Dax Malleus](#)) suffer a forced knockdown if their special attacks are interrupted by gunfire.

Abilities That Have Unique Interactions With Overguard

This is a short list of Warframe abilities that will slow enemies with Overguard until it is removed, after which the ability will affect them like normal:

- [Vauban's](#) [Bastille's Vortex](#)
- [Zephyr's](#) [Tornados](#)
- [Gyre's](#) [Coil Horizon Vortex](#)

Sources of Crowd Control

Note that non-CC effects (e.g. damage, [armor/shield](#) removal) of these abilities will still apply to enemies with active Overguard.

Bugs

- Blocking with melee weapons will not build the combo counter or prevent damage while Overguard is active.
- Auto block and manual block with melee equipped disabled during Overguard.

Patch History

Hotfix 36.0.5 (2024-07-20)

- Fixed Overguard preventing players from parrying.

Update 36.0 (2024-06-18)

Magnetic

Magnetic has received a few buffs to increase its effectiveness against Shields and to hammer home the power fantasy of overloading enemy Shields.
