Become enraptured by the song of devastation. Through her, the Jade Light can be a force of destruction or a source of support.

For the [Orokin](#) execution method, see [Jade Light](#).

Release Date: June 18th, 2024

Angelic allure graces the assembly in blissful song, hymns threefold of wartime armistice and abhorrent passion. Echo the Naga Drums to [Tenno](#) heartbeats, delivered thus to the [Orokin](#) a coup d'état. Amidst the anthems of devastation, a solemn soul sings proud, her audience awestruck by oblivion's embrace. Blessed be the Lucent Virtuoso, **Jade**, whose glorious choir casts forth a crescendo of emerald blaze. Before heavenly ascent, thou shall behold one final glimpse: sublime plumes unfurl to seraphic wings most divine. Jade descended from the heavens in [Update 36.0](#) (2024-06-18).

Acquisition

Jade's main blueprint is acquired upon completion of the [Jade Shadows](#) quest. Her component blueprints are obtained from [Ascension](#) on [Brutus](#), [Uranus](#), at a 5% drop rate.

Notes

- Currently, [Evensong](#), [Cantare](#), and [Harmony](#) all lack a [Signature Weapon](#) bonus with Jade.
- If [Stalker](#), [Shadow Stalker](#), or [Protector Stalker](#) appears in the mission via [Death Mark](#) and Jade is present, the Stalker will immediately despawn and drop his loot.

Trivia

- Jade is the 57th unique Warframe to be released.
- In the Pax East 2024 live audience [Devstream 178](#), Jade's update teaser splash art was revealed with the [Stalker's Landing Craft](#) looming in the background. In [Devstream 179](#), Jade's concept art, theme, signature weapons, and alt helmet were shown. In [Devstream 180](#) her full gameplay reveal was demonstrated by a prerecording from [DE]Pablo.
 - Notably, considerable effort was done to hide her pregnancy prior to her introduction to the game: Teaser art either featured her from behind or in one case, with [Harmony](#) obscuring her stomach, while gameplay footage and animations never showed her from up front.
- Jade takes several inspirations from Angels from Abrahamic religions. Most notable in the numerous sets of wings she has and her link to choral music.
 - Her dress and the covers wrapped around her chest and her helmet are feather-like protrusions with cloth physics; they stay folded and compact when idle, then expand into angelic wings during [Idle Animations](#) and [Glory on High](#).
 - Symbols for [Symphony of Mercy](#)'s three auras resemble biblical angel's wings in various shapes and forms.
 - Additionally, Jade is named "Choir" in the game files.
- She is the first Warframe whose name starts with the letter 'J'. At the time of her announcement, there was 1 remaining letter in the English Alphabet 'U', that did not have an associated Warframe.
- She is the next female Warframe in line after [Trinity](#), [Equinox](#), [Wisp](#), [Yareli](#), [Gyre](#), and [Dagath](#) to wear a skirt or dress with cloth physics.
- Jade is also the name [Nyx](#) originally went by during development.
- She is the first Warframe to have two [Aura](#) mod slots as her unique passive.
- She is the second Warframe to have three [Signature Weapons](#) after [Gara](#).
- She is the third Warframe after [Protea](#) and [Dante](#) with a built-in universal [Aura](#) polarity.
- She is the third Warframe after [Titania](#) and [Hildryn](#) to use a flight-based fourth ability associated with an [Exalted Weapon](#).
- She is the eleventh Warframe after [Limbo](#), [Hildryn](#), [Wisp](#), [Titania Prime](#), [Protea](#), [Xaku](#), [Sevagoth](#), [Gyre](#), [Qorvex](#), and [Dante](#) with a unique dodge roll animation, where Jade dashes with her arms outstretched, or twirls during sidesprings, along with the wings on her torso

- Jade's weapons are parallel to the [Stalker's](#): [Dread](#) vs. [Evensong](#) bow, [Despair](#) vs. [Cantare](#) throwing knives, and [Hate](#) vs. [Harmony](#) scythe.
- Jade's component blueprints were accidentally included in [Dagath's Hollow](#) in the [Clan Dojo](#) upon the initial release of the Jade Shadows update. The blueprints were subsequently removed on [Hotfix 36.0.1](#) (2024-06-19), and all players who bought copies of Jade's component blueprints this way were allowed to keep them.
 - This unintentional feature ends up showcasing parallels between the two Warframes, as Jade and [Dagath](#) were both in relationships forbidden in Orokin society prior to their conversion to Warframes, though whereas Jade and Sorren's relationship was borne out of genuine love and led to Jade bearing a child, Dagath's relationship with [Corphel & Irilia](#) was only done to satisfy the couple's lust and ended with them dead after the couple failed to kill Dagath.
