Dual Toxocyst

170 EDIT

INFESTED WEAPONS

CONCLAVE (PvP)

CODEX

Brain-strikes excite this bioweapon, causing it to rapidly release toxic munitions.

The **Dual Toxocyst** is a pair of [Infested](#) sidearms oriented towards [Puncture](#) damage. Successfully achieving a headshot with this weapon temporarily grants it increased [fire rate](#), additional [Toxin](#) damage, reduced [recoil](#) and [infinite ammo](#). However, its initial recoil is very high and initial fire rate is very slow.

This weapon can be sold for **7,500**.

Notes

- Frenzy buff triggers **only** on [headshots](#), and not other weakspots, such as the backpacks of most [MOA](#) variants. Similarly, shooting weakspots generated by either [Sonar](#) or [Detect Vulnerability](#) in places other than heads will have no effect either.
 - Headshots on corpses will not grant the buff.
 - The fire rate bonus from Frenzy stacks multiplicatively after any equipped fire rate

- The +100% [Toxin](#) from Frenzy is additive with elemental mods, and will combine with elemental mods equipped on the weapon, ex. having [Heated Charge](#) or [Scorch](#) equipped will make the Dual Toxocyst deal [Gas](#) upon activating the buff.
 - The [Toxin](#) bonus will take priority when combining with singular elements on Dual Toxocyst before other bonuses such as [Shock Trooper](#).
 - If the Dual Toxocyst is modded with a combined element such as Corrosive, the bonus toxin damage will be added to that element's damage.
- If Frenzy is triggered or if it disappears, this weapon makes a noise that will alert nearby enemies. This noise **cannot** be reduced with [Suppress](#) or [Hushed Invisibility](#).
- Triggering the buff with the last bullet of the magazine does not require the user to reload the weapon before shooting again because it stops consuming ammo, and therefore is an effective candidate for [Synth Charge](#).

Incarnon Genesis

- Upon completion of [The Duviri Paradox](#) and [Angels of the Zariman](#), and unlocking [The Steel Path](#), players can earn [Dual Toxocyst Incarnon Genesis](#) from [The Circuit](#)'s Steel Path to place on their Dual Toxocyst with the help of [Cavalero](#) in the [Chrysalith](#). This [Incarnon Genesis](#) form grants it evolutions to a transformation and newfound strength.

Evolution

This section is [transcluded](#) from [Dual Toxocyst Incarnon Genesis § Evolutions](#).

To change it, please [edit the transcluded page](#).

- Installing the Dual Toxocyst Incarnon Genesis requires 20 [Pathos Clamps](#), 70 [Yao Shrubs](#) and 80 [Eevani](#).
- When installed, the first Evolution tier is unlocked. The following Evolution tiers, their requirements for unlocking them, and their related perks, are shown below;
 - Each challenge additionally grants 5,000 [affinity](#) to the weapon, affected by [Affinity Boosters](#).

Evolution I

- Headshots charge Incarnon Transmutation; Alt Fire transmutes. Switching back will expend any remaining charge.
- Gain an Auto Fire mode and Ricochet.
- Incarnon Form becomes fully automatic with higher [Critical Chance](#), [Critical](#)

ricochet to **1** nearby enemy per shot within **5** meters of the main target.

- The ricochet prioritizes headshots and is capable of triggering Dual Toxocyst's Frenzy buff.
- Additional pellets generated via [Multishot](#) can ricochet into different targets.
- Ricochet rounds are affected by [Galvanized Shot](#) and the base damage values of both Evolution II perks.
- By using [Punch Through](#) every enemy hit with the main shot along the punch through line creates ricochet rounds.
- Enemies in a [Ragdoll](#) state cannot be hit by ricochet rounds so any grouping tool that isn't [Magus Anomaly](#) or [Ensnare](#) will prevent ricochet shots from hitting any of the other grouped targets.
- Mode switching is **not** instantaneous and has an animation equal to the weapon's [reload speed](#).
- Incarnon Form is activated by filling the Incarnon Transmutation gauge that appears under the reticule by achieving [headshots](#) and then pressing the [Alternate Fire](#) button. **9** headshots will completely fill the gauge. A full gauge is not required to activate Incarnon Form.
 - Charges generate **only** on headshots, and not other weakspots, such as the backpacks of most [MOA](#) variants. Similarly, shooting weakspots generated by either [Sonar](#) or [Detect Vulnerability](#) in places other than heads will have no effect either.
 - Headshots on corpses do **not** build charges.
 - Individual [Multishot](#) bullets can build charges.
- Instead of drawing ammunition from its reserves, the Dual Toxocyst's Incarnon Form uses a separate "magazine" with each charge producing **30** rounds to a maximum of **270**. Once all ammunition is expended, the Dual Toxocyst reverts to its normal form.
 - Incarnon Form's magazine is **not** affected by mods.
 - Incarnon Form is **not** affected by [Ammo Efficiency](#) (such as [Energized Munitions](#)).
 - Charges and Incarnon Form persists through all activities, such as holstering, [bleedout](#), or being [disarmed](#). However, charges and Incarnon Form are removed upon [death](#).
- Swapping to and from Incarnon Form will fully reload the normal form's magazine.

Evolution II

- Perk 1: **Carnage Reign:**
 - Increase Damage by **+60**.
 - **+33%** Direct Damage per Status Type affecting the target.
- Perk 2: **Fevered Frenzy:**
 - Increase Damage by **+50**.
 - On Ability Cast: **+5%** Multishot. Stacks up to **20x**.
 - The multishot bonus stacks additively with multishot mods such as [Barrel Diffusion](#).
 - [Transference](#) can build stacks.

Evolution III

- *Unlock Challenge:* Kill **100** enemies with this weapon's Incarnon Form.
- Perk 1: **Ready Retaliation:**
 - On Reload from Empty: **+100%** Reload Speed.
- Perk 2: **Evolved Autoloader:**
 - **+50%** Magazine Reloaded/s when holstered.
- Perk 3: **Marksman's Hand:**
 - **-50%** Weapon Recoil.

Evolution IV

- *Unlock Challenge:* Get **17** consecutive headshots.
 - Challenge will reset from inflicting body shots or damage dealt from [Companions](#). [Status Effect](#) damage does not reset the challenge.
 - Hits landed from multishot count towards this challenge.
- Perk 1: **Commodore's Fortune:**
 - Increase Critical Chance by **+20%**.
- Perk 2: **Neurotoxin:**
 - On Headshot: **+70%** [Toxin](#) for **3s**.
- Perk 3: **Ripper Rounds:**
 - On Kill: **+3** [Punch Through](#) for **7s**.

- The headshot buff can completely counter the weapon's low innate fire rate and max ammo capacity.
- If modded with [Gas](#), the gas clouds deals a tick of damage each second, each tick has a chance to refresh the "**Frenzy**" buff.
- Use of the increased zoom module [Hawk Eye](#) can make gaining the headshot buff easier, thus significantly increasing the weapon's damage outputs and versatility.
- The [Scourge](#) synergizes well with these pistols as the speargun can debuff enemies with [Magnetize](#)-like fields on their heads when thrown and left to allow it to recast its debuff at fixed intervals.
- The added [Toxin](#) damage when landing headshots makes the pistols deceptively effective against any shielded [Corpus](#) enemies.
- While under the effects of the triggered buff, the fast fire rate and unlimited ammo, combined with the low [critical chance](#) and average critical multiplier make rapid fire bodyshots more viable than aimed headshots.
- [Hydraulic Crosshairs](#) can be triggered at the same time as the buff, though the low base [critical chance](#) makes this mod of limited utility.
- Installing [Steady Hands](#) completely negates recoil while buff is active.

Trivia

- The Dual Toxocyst is the first infested dual pistol added to the game.
- Triggering the innate headshot buff or reloading the weapon will cause the Dual Toxocyst's barrel to open up like jaws, connected by infested tissue between its upper and lower parts.
