WUKONG PRIME BUILDS

BUILDS BY NINJASE

Lazy Monkey King | Clone Buff, Health Tank, Speedrun Wukong

INTRODUCTION

A standard lazy tanky [Wukong] with roar for buffing yourself, your clone and other players. Good for speedrunning and general use missions throughout normal starchart and base/early steel path. Falls off in late steelpath/endurance due to reliance on health/armor tanking.

Don't use [Umbral Fiber] since it only gives an additional 529 armor, compared to 1500 from defy and 900 from Arcane [Guardian], and a negligible boost to health and strength. [Adaptation] works fine unranked and saves mod capacity if you don't want to spend more forma. Feel free to use umbral forma for more flexibility and higher drain mods e.t.c

BUILD SPECIFICS

Duration

This is mostly for cloud walker so you can travel further with each cast, as well as lengthening roar duration

Efficiency

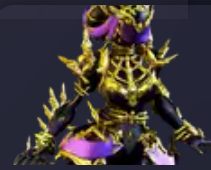

Neutral to positive efficiency helps with 2 spam for quick map traversal

Range

Minimum range may seem too low but roar has a high base range, so 8.4m is enough since your Clone always stands within 2-4m while idling. You can increase this with Augur reach or stretch if desired.

Strength

Higher strength scales clone health and roar buff.
