Acquisition

- This mod can be purchased **unranked** from Baro Ki'Teer for  **200,000** and 
- ~~280. Note however that Baro Ki'Teer's stock changes with each appearance, and~~

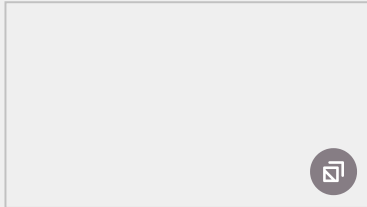

Tips

- Works particularly well with the  [Kuva Hek](#), as it grants the gun an additional four rounds of ammunition and allows a quick succession of its heavy burst alt-fire shots.
- Works also well with the  [Tigris](#) shotgun series, allowing a quick fire of four rounds within a second and increasing overall DPS due to its fairly quick reload speed.

Trivia

- Primed Ammo Stock was an unintentionally released and briefly replaced all standard copies of  [Ammo Stock](#) between [Update 16.4](#) (2015-04-23) and [Hotfix 16.4.1](#) (2015-04-23), however aside from its Legendary rarity, the two mods were otherwise identical.
- When paired with  [Burdened Magazine](#), this mod allows the  [Exergis](#) to reach a magazine size of 3 without use of [Riven Mods](#).
