Stats

WARFRAME Wiki

Rank	Elemental Damage	 Duration	Cost
0	50%	20s	6
1	100%	20s	7
2	150%	20s	8
3	200%	20s	9

Acquisition

- This mod can be acquired by attaining the rank of **General** under [New Loka](#), or the rank of **Exalted** under the [Red Veil](#), and spending  **25,000** to purchase.

Notes

- Only mixing any element (by holding one or two of his abilities) will contribute to the bonus weapon damage when an ability is used.
- Only one element bonus can be active at a time, casting another ability with a mixed element will replace it and refresh the duration.
- Bonus elemental will combine with elements on the weapon if applicable, but the specific elemental proc will remain.
- Affects damage-over-time from Lavos' abilities.
- Unlike any other buff in the game, this one **cannot** be negated by nullifying bubble and enemy abilities, also jumping into the void **doesn't** reset it.
- Valence Formation is the only buff in the game that affects the aoe explosion of [Vile Discharge](#), though it will only add the status effect, not damage.
 - However, the proc will effect Lavos if he is within range unless he has Valence Block active.

Tips

- This allows Lavos to freely deal with enemy weaknesses such as removing armor

Passive Augment: Upon Ability cast, applies the Ability Element as 200% Elemental Damage to your weapons with guaranteed Status for 20s.

General Information	
Type	Lavos
Polarity	 Zenurik
Rarity	Rare
Max Rank	3
Endo Required To Max	210
Credits Required To Max	10,143
Base Capacity Cost	6
Trading Tax	 8,000
Introduced	Update 35.5 (2024-03-27)

by adding  [Magnetic](#) damage.

- Shotguns are ideal weapons to utilize with this augment as each pellet will gain the boosted damage and proc the element on every hit.
 - Conversely, beam weapons may be less effective than expected as modding for multishot will not increase the number of hits.
- Can damage the [Profit-Taker Orb](#)'s shields, allowing Lavos to adapt when she changes her elemental weaknesses.
- In some cases, it can be beneficial to use an unranked version of this mod so that the innate status effects on the weapon are more likely to happen, while the element from Valence Formation will still be guaranteed on hit.
 - Elemental bonuses will affect the damage of their respective status effects, so status effects from an unranked Valence Formation will deal less damage.

Bugs

- Does not affect the tether mode of the thrown  [Ferrox](#) or  [Tenet Ferrox](#)

Maximization
