# Acquisition

- This mod can be purchased unranked from Baro Ki'Teer for  200,000 and  280. Note however that Baro Ki'Teer's stock changes with each appearance, and may not have this item available every time.

## Notes

- For any non-integer magazine values the magazine size is simply rounded to the nearest whole number. For example, a  Braton modded with a max rank **Primed Magazine Warp** will have a calculated magazine size of  $45 \times (1 + 55\%) = 69.75$ , which will simply round to **70**.
  - A weapon with only 1 base magazine capacity (such as  Vectis and  Tonkor ( Kuva)) will have  $1 \times (1 + 55\%) = 1.55$ , rounded to **2** magazine capacity.
- Stacks with  Tainted Mag (+66%) and  Wildfire (+20%) for a total of 141% magazine capacity.
