An ancient blade predating the fall of the Orokin Empire. Forged using techniques lost over the centuries, the edge remains sharper than that of any modern Nikana.

NIKANA PRIME BUILDS

BUILDS BY PSYCHEDELIC

Heat / Corrosive / Viral synergy build

Hello everyone.

This is my take on a [Nikana Prime] build.

I am using Corrosive instead of Viral because I have a Panzer Vulpaphyla that adds Viral procs on my enemies, with this synergy I have 3 status effects that procs and stacks [Condition Overload], reduces armor and Viral increases the slash and heat damage.

The Panzer Vulpaphyla also heals you when it deals damage.

If you don't want to use a Vulpa pet replace corrosive with Viral :)

With this build I shredded lvl 180 heavy corrupted gunners in under 3 seconds without stealth bonus or buffs.

I hope you will enjoy it :)
