## Notes

- Titania Prime, compared to [Titania](#):
  - Higher [Health](#) (365/465 vs. 270/370)
  - Higher [Armor](#) (135 vs. 105)
  - Higher [Energy](#) (215/265 vs. 175/225)
  - Higher Starting Energy (125 vs. 100)
  - Additional [Polarities](#) ( [Polarities](#) vs. [Polarities](#) )
- As with any other [Prime](#) Warframe, moving close to the location of an [Orokin Void Death Orb](#) will restore a pulse of 250 [Energy](#) to nearby allies, even if that Death Orb is inactive, destroyed, or non-present. This effect can only occur once per orb.
- In [Razorwing](#) mode, Titania Prime features an additional pair of astral wings on her upper back, giving her a set of 4 wings like real butterflies.

## Trivia

- Fitting with her fairy theme, Titania Prime floats above ground when walking and sprinting. This trait is not present in her original, non-primed variant.
  - Titania Prime is the second Warframe to have custom walk and sprint animations, the first being [Wisp](#).
  - Titania Prime is the fourth Warframe to have custom rolling animations, after [Limbo](#), [Hildryn](#), and [Wisp](#).
  - However, Titania Prime still uses default animations (walking and using her feet) when crouching, [aiming](#) her gun, wielding an [Archgun](#) in [ground combat](#), or extracting from a mission.
- Titania Prime is the seventh [Primed](#) Warframe whose non-primed variant was unlockable through a quest ([The Silver Grove](#)), after [Atlas](#), [Mirage](#), [Limbo](#) and [Chroma](#).
