Which is faster for credits: High Index vs Profit Taker

[Discussion](#)

I'm about to start doing profit taker and I was wondering which is faster for credits?

Depends on luck and setup. People can do pt so insanely fast and if you have boosters+kavat+chroma procing you get a fuckton but it's luck based and much more skill based. Index is alot more consistent but a bit slower but needs less setup.

There is a trick for index though, get a full squad, sit in enemy spawn. Face away from the map and use duality equinox. Clone will kill enemies without you seeing them and you looking away causes them to spawn closer. You need to not have stupid squad mates though.

With the right setup PT is faster and waaaay more fun plus gives more rewards than just credits. Index bores me after like 3 rounds so I avoid as much as I can.

Profit taker usually but not always. It really depends on who you match with but most of the time you will match with someone who is finishing profit taker as you are starting profit taker.

I find index solo WAY faster than in a group. At 15 tokens, you get 23 total. I usually just get 16 (24) points 4 times and the specters are usually good for the other 4. Plus you get the tokens from the WF specters that died when you kill whatever killed them. I typically do it in 4-5min and do so very consistently.

Rhino with no forma and a tenet arca plasmor is my go to.

profit taker by miles.. i get like 1 million per runs by playing with random players during credit booster event. those credit i farmed still last to this day

PT is much better if you have boosters, cats, or chroma, since it's affected by all of those, whole index is easier, less intense, but gives a fixed amount at an arguably slower rate

It is more solo friendly and faster though needs more setup

High Index: First Round 200k (with 2x = 400k) Every following Round 250k (with 2x = 500k)

with Credit Booster you gain 2x

Profit-Taker: In an optimized Squad you need less than 5 min for 1 round.

5x 25k = 125k Common Boosters 2x Credit Booster 2x Chroma Effigy 2x Kitty Booster (for each buff 2x) 2x ~~Credit Bonus Weekend~~ (skimmed because we cant get this ourself) 2x ~~First Mission of the Day~~ (skimmed because isent relaiebel because only 1 time per day)

with booster and effigy $125k \times 2 \times 2 = 500k$

1 Kitty $500k \times 2 = 1kk$ 2 Kitty $500k \times 2 \times 2 = 2kk$ 3 Kitty $500k \times 2 \times 2 \times 2 = 4kk$ 4 Kitty $500k \times 2 \times 2 \times 2 \times 2 = 8kk$

And for fun with the the other Bonuses $8kk \times 2$ (Credit Weekend) = 16kk $16kk \times 2$ (First Mission of the Day) 32kk

I dont know if if the True Masters Font blessing (+25% Credits) does work on the Profit Taker i think it is worth some testing. If you do Profit-Taker dont Wait for the Kitty Buffs, finish him as fast a possibil if you want to be efficient, m the kitty buffs are only some bonuses, you need to stay as close as possibil together in a team too max out the kitty buffs if they apply.

Wich mode you play is your choice but if you dont want to burn out i recomment Index xD

GL and HF

Edit: Its possibil that a Singel Kitty gives more than 1 Buff to apply but getting at least a singel one is more than enough too hope for

Cred booster + double credit weekend + chroma = 1,000,000 creds in 5 to 10mins

Index is decently fast but I personally rather play conclave.

My preferred credit farm is railjack with 1 cred booster. The sover strait mission is done in 1 minute and you get 60,000 creds with the booster.

It's slower than profit taker and index, but more fun imo.

Profit taker feels faster to me and its also alot more tolerable.

Index is fine but feels a bit boring.

PT can be done in a few mins

Profit-Taker is much, much faster, and it's relatively easy to get sub-5 minute times with the right setups. It also has a thriving speedrunner community for some reason, which index doesn't, so pubbing it is much more effective.
