What Stalker?

 [EDIT](#)

The Stalker's favorite gear.

—In-Game Description

What Stalker? can be purchased for  **750** from the [Market](#). This bundle includes the following items, with individual prices listed below:

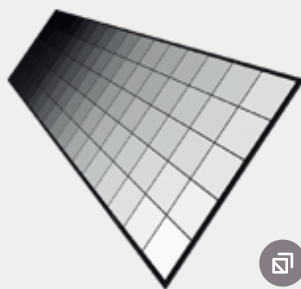

[Dread](#)

[Despair](#)

[Hate](#)

[Color Picker Extension](#)

75

Notes

- Included weapons will each come preinstalled with their own inventory slots and [Orokin Catalyst](#).
- Despite the fact the [Hate](#) has a [mastery](#) requirement of 8, the bundle itself does **not**, meaning a player of any mastery rank can purchase the bundle and bypass that restriction.
- [Dread](#), [Despair](#), and [Hate](#) cannot be purchased separately. However, their [blueprints](#) can be dropped by the [Stalker](#) himself.
- The title of the pack, "*What Stalker?*", is a reference to the fact that members of [Digital Extremes](#) used to refuse to speak about the Stalker and acted as if he did not exist.^{[*[citation needed](#)*]}
- If the player already owns the Smoke color Palette, Purchase of the "What Stalker?" will be locked, stating that the user can't own more than one copy of the listed item.

As of the most recent update, the Smoke color Palette is no longer part of the bundle it seems.

How tf do so many people misspell "despair".. is it some kind of a meme? a reference to something? genuinely curious

Imagine if they make excalibur a stalker helmet to make him look like stalker and if they had a color thing for making excal body look exactly like stalker's

A Fandom user • 1/16/2024

That would be cool

5 years playing this game and I still haven't had a Hate drop. We're talking about a trash tier Scythe too... It makes me glad I bought this bundle nearly 4 years ago now - but equally as disappointed because it's clearly shitty RNG to encourage sales of this pack. DE is generally good about their microtransaction system - but some items are made mindnumbingly stupid to obtain for one clear reason... sales.

It can be decent with a riven though, it has max disposition.

A Fandom user • 6/1/2019

i got the smoke epherma, dread, war, and broken war but no despair or hate :(

Rocko8u • 7/13/2019

The only in-game thing I found myself buying instead of farming was the Xiphos ship. I was able to get all of the Stalker's weapons within a year or so just by completing all of the assassination missions then going to regular missions until he appears, rinse and repeat sort of thing. Though it didn't work

out like that, I got War during a spy mission and I don't remember when I got Hate because I believe I got it before I got the War blueprint.

A Fandom user • 9/1/2020

I got all of the weapon drops, and I wasn't even farming for them.

A Fandom user • 11/22/2017

I actually got Dread in my 1st time. LOL I didn't know the weapon was that rare I thought one of them would be guaranteed

A Fandom user • 11/22/2019

I actually got war my first time killing the stalker

A Fandom user • 4/28/2020

cant say dread is a first time drop. second stalker kill and no sign of dread, only mods from here

A Fandom user • 11/7/2020

LMAO you thought dread was rare

I've killed this guy so many times now, only ever got dread bp's....
i don't know if having the stalker sigil equiped increases his spawn rate, but he spawns quite often for me.
Easy soloable by just wailing on him with Silva and Aegis prime though he might get one or 2 hits in before dying.

Lenz rulez ♥

[A Fandom user](#) • 2/25/2018

The Lenz and Dread both have equal crit chance since they are tied for highest crit chance.

[A Fandom user](#) • 7/16/2018

But Lenz is explosion bow. I name thee, Bombow

[ZeggVonRonsenbergReal](#) • 1/23/2021

Might I introduce all of you to the Rakta Cernos? It's actually the best bow.

[Frosk123](#) • 3/29/2017

fml, all I ever used to get was dreads, now all I'm getting are dreads, war and broken wars. I'm honestly considering buying this (at the moment I don't have a crafted dread anyway, sold it to make room for my rakta cernos)
I already own the smoke colours though, can anyone tell me whether you feel this bundle would be worth or absolutely not worth it?

[A Fandom user](#) • 1/28/2018

nope not worth it

[RickTyger](#) • 3/9/2023

For the sake of getting the weapons, it would be. But you can't buy it if you own Smoke.

The only thing I want out of this is Dread. Not paying 40 bucks for one weapon, Why must the RNG gods shit on me ;_;

[RickTyger](#) • 3/9/2023

Weird. Everyone I know of can only get Dread to drop. There are people in my clan that have been with the game since the beginning, and still don't have Hate or Dispair. The pack needs to be seperated from Smoke, so that it can be purchasable, or the weapons purchasable seperatly.

Its not a easy task to kill the Stalker, make sure you use powerfull weapons, like a good claymore sword, or a big axe, Bo staff are not good enough. Its important to kill him fast. When he use meelee he will give you a good right hook, make sure you hit him and answer with a uppercut. Ironskin dont do a shit, just get ready when he show up.

Its a pity your profile doesn't show how many times you take out the Stalker and vice versa. Its a stat I would be proud of, as Im sure many others would be.

[GreenMoriyama](#) • 12/29/2014

If you only got the bow (or don't even have it at all), I have to say it is fine. Otherwise though, you shouldn't spend 800p for the set (supposedly 725p for the set if you do not include the color palette) as it isn't much worth it...
