Which duviri weapon is worth getting at this point?

[Question/Request](#)

So, after fighting the entire aburame clan on duviri paradox I am bestowed with the opportunity to be able to get a duviri weapon. Reddit and youtubers alike are on the same ground that duviri weapons are pretty meh. So if I am to get one, should I go for the regular weeb stick or the dark souls weeb stick ?

Edun is a big no.

Nikana and the spear are the best of the bunch

Edun is nude spelled backwards.

I don't know why that just crossed my mind.

Edun is easy mode for Drifter combat. Just spam the heavy attack.

All are worth getting for mastery, but beyond that I haven't been impressed with them. Cinta is diet Nataruk with an unusable, clunky alt fire. Syam is yet another melee with a projectile on heavy attack, only it's deafeningly loud. Sampotes is a forgettable hammer. Azothane looks cool, but its shockwave gimmick is largely useless and 2h nikanas still have only one stance (and it sucks). Sun and Moon are fine, but they aren't incarnon, or glaive prime, so it's hard to find a use case for them.

Don't get the big sword it's a two handed nikana. The current only stance for it is a huge downgrade and the weapon doesn't have enough mod capacity to be worthwhile without a stance.

I feel like for drifter, either dual nikana or normal nikana is the best.

For warframes I think that all of them are good combo weapons for how early in the game you can get them, but all of their gimmicks either are bugged or just suck balls so I guess pick whichever has the best stance.

For drifter everything is pretty much the same, for star chart sun and moon and syam are the only ones that are usable without a stupid gimmick that hurts the weapon (looking at you sampotes)

Please don't look at my sampotes

In duviri i like the nikana and two handed nikana the most.

In normal star chart i really like sun&moon because its something new and the nikana. But im a sucker for nikanas in generell though.

Was wondering what's your duviri melee ranking from best to worst? (I only got Sun & Moon and Sampotes so far)
