Notes

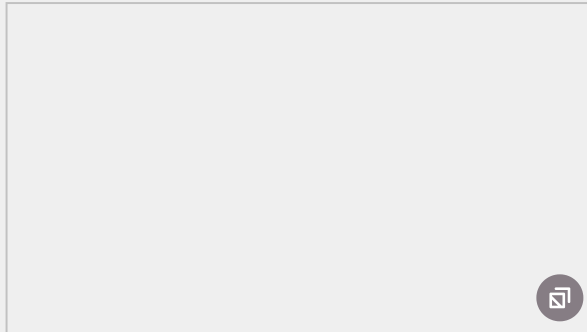

- Harrow Prime, compared to **Harrow:**
 - Higher [Shield](#) (640/740 vs. 455/555)
 - Higher [Energy](#) (140/190 vs. 100/150)
 - Additional [Polarity](#) (vs.)
- If Harrow Prime wields his [signature Knell/](#) [Knell Prime](#), the weapon's magazine size is increased by **1** round, for a total of **2** rounds.
 - Currently, [Scourge/](#) [Scourge Prime](#) lacks a Signature Weapon bonus with Harrow Prime.
- As with any other [Prime](#) Warframe, moving close to the location of an [Orokin Void Death Orb](#) will restore a pulse of 250 [Energy](#) to nearby allies, even if that Death Orb is inactive, destroyed, or non-present. This effect can only occur once per orb.
- Harrow Prime wields gold-ornated exquisite [Thurible](#).
- Due to his [passive](#) doubling [overshield](#) capacity, Harrow Prime possesses the highest base total shield value of all Warframes in the game: 3,140.

Trivia

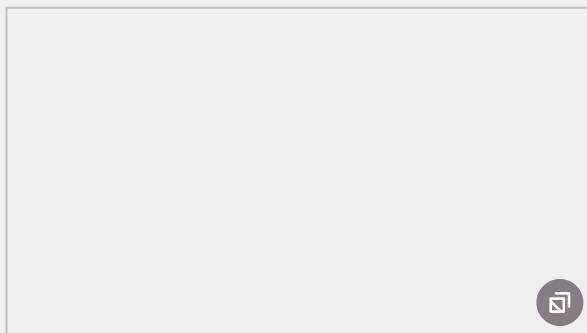

- Harrow Prime is the fifth Primed Warframe to have Signature Weapons, after [Gara Prime](#), [Octavia Prime](#), [Atlas Prime](#), and [Banshee Prime](#).
- Harrow Prime is the tenth Primed Warframe whose non-Primed variant was unlockable through a quest ([Chain of Harrow](#)) after [Nidus](#), [Gara](#)

- Harrow Prime's mask seems to resemble a gas mask or might be a direct reference to the movie [Insidious \(https://en.wikipedia.org/wiki/Insidious_\(film_series\)\)](https://en.wikipedia.org/wiki/Insidious_(film_series))), where a scene shows one of the characters using a gas mask to communicate with someone/spirit between worlds. This seems fitting for [Harrow/Rell](#)'s lore.
