Info

- Cast  [Light Verse](#) and/or  [Dark Verse](#) to fill in **2** pages that complete the **Final Verse**. Cannot be cast without two pages. Once the story is written, Dante fulfills the narrative by expending  **50 energy** on cast, which grants him **1** second of [Invulnerability](#) during casting and materializes one of four stories based on page order: **Triumph**, **Tragedy**, **Wordwarden**, or **Pageflight**, while removing both pages from the storybook display above the ability icons. Each story lasts for  **30 / 35 / 40 / 45** seconds with a range of  **15 / 20 / 25 / 30** meters.
 - The specific story ability icon appears above the storybook display when two pages are filled, with the pages visually glowing.
 - Replace filled pages from the right to left by recasting Light or Dark Verses to create the desired story combination.
 - Stories with active duration appear as ability buff timers beside Dante's hitpoints indicator.
- All stories can be recast while active.
- Casting Final Verse is a full-body animation that allows uninterrupted movement and parkour [Maneuvers](#).
- Dante's four favored chapters exhibit diverse effects involving protection, damage, summoning, and debuffing:

Triumph Tragedy Wordwarden [Pageflight](#)

- Written with first Dark and last Light pages (default  then ). **Pageflight** summons **3** spectral [Paragrimms](#) with high [Threat Level](#) that fly around for the story duration and attack enemies within **30** meters, dealing  **150 / 200 / 250 / 300**  [Slash](#) damage, status, and  [Stagger](#). Enemies hit by Paragrimms also receive  **35% / 40% / 45% / 50%** [Status Chance](#) vulnerability and  **35% / 40% / 45% / 50%** increased Status Damage for  **15 / 20 / 25 / 30** seconds.

- Status chance vulnerability is multiplicative to other sources of status chance, and does **not** increase Pageflight's  [Slash](#) statuses per Paragrimm hit.
- Status damage increase is multiplicative to other sources of status damage.
- Enemies debuffed by the Paragrimms are visually surrounded by an upsurging double helix.
- Pageflight Paragrimms are summoned allies with diverse properties and behaviors:
 - [Invulnerable](#) and intangible, able to phase through enemy attacks, solid entities and obstacles in the environment.
 - Fly above Dante when no enemies are detected in range, and return to him when farther away than range.
 - Detect enemies in range without direct line-of-sight.
 - Prefer striking different targets to apply status vulnerability, while able to focus their combined attacks on a lone enemy. Once all enemies in range are debuffed, the Paragrimms prioritize attacking enemies closest to Dante himself.
 - Strike each target by flying through them, then encircling back along their flight path.
- **Ability Synergy:** Pageflight's status chance vulnerability increases [Dark Verse's](#) [Slash](#) status stacks per hit.
