Trivia

- Baruuk was announced during [Devstream 119](#).
- Baruuk is described as a "pacifist Warframe" and "reluctant hero", someone who

breaking point.

- The quote "beware the fury of a patient man" and permutations of it have long been used throughout real-world history. It is likely based upon the fact that some people are noticeably slow to anger. Once these people **are** angered, however, they often exhibit frightening levels of pent-up rage.
- Baruuk's abilities are described to revolve around mitigating, suppressing and preventing damage until reaching a certain threshold, after which he switches to all-out offense.
 - Artwork created by Alice Boudry for Baruuk's reveal coincidentally depicts Baruuk deflecting attacks.
- Baruuk's design is inspired by Sudanese tribes.
- The word "בָּרוּךְ" (pronounced *Bārûḵ*) means "blessed" in Tiberian Hebrew. Baruuk is depicted in-game wearing an *avnet* ('priestly sash') around his waist and up to the base of his ribcage, which was worn only by the [High Priest of Israel](#).
- Baruuk is the 38th Warframe to be released (excluding Primed and Umbra variants).
- Baruuk is the first Warframe whose blueprints are obtained from a syndicate, [Vox Solaris](#), using [Standing](#).
 - As a result, unlike most other Warframes, acquisition of Baruuk's blueprints doesn't depend on random chance, similar to Warframes that can be acquired from the [Tenno Lab](#).
- Baruuk's fourth ability, [Serene Storm](#), is the first channeled ability, and [Desert Wind](#) is the first [Exalted Weapon](#), in the game that doesn't require energy, using his unique Restraint that eroded with his other three abilities.
 - Restraint can still be eroded normally while Serene Storm is active.
 - Desert Wind is the second melee Exalted Weapon with innate ranged attacks, the first being [Exalted Blade](#).
- Baruuk's Exalted Weapon had a placeholder name "Paci Fist" in the developer build.
- When another Tenno is under the effects of both Baruuk's [Desolate Hands](#) and any kind of invisibility, orbs will appear in place of the daggers.
- Unlike most of the Warframes, Baruuk was released with only his signature melee, [Cobra & Crane](#).
 - As a pacifist, who is typically against taking offensive actions, this may explain why he doesn't have any signature firearms.
 - Baruuk is the first Warframe to have signature weapon synergy, since his

- Baruuk is the second Warframe to use another type of ability resource besides energy, after [Nidus](#) and later [Hildryn](#) and [Gauss](#). In Baruuk's case, he uses his Restraint.
