Kullervo's signature weapon boasts melee synergy. Every shot that lands increases the wielder's Melee Combo count. When Kullervo wields Rauta, it also increases his Melee Combo duration.

WARNING THIS BUILD IS STRICTLY TO MAX AND MAINTAIN COMBO IT WILL NOT KILL STUFF ITS PURPOSE IS TO BUILD COMBO

this build will max your combo in a single magdump in less than 3 and a half seconds.

main benefit of this build is that the combo can be maxed in that time regardless of the amount of enemies on screen with the minimum amount of enemies required being 1 of course.

how is this build useful?

I'm sure you all can figure that out.
