DUAL KERES PRIME BUILDS

BUILDS BY WETARGONCRYSTAL

DUAL KERES PRIME Build (Nothing but RED)

The vast majority of my builds are designed to help others, but are also designed for me as reference points to know how I want to build my weapons. And I'm aware that the simulacrum exists, but unlike most of you that will give me shit in the comments, I have a life outside of this game. So this is what. I use when I'm not playing. I'M FULLY AWARE THERE ARE BETTER BUILDS FOR THINGS LIKE STEEL PATH, LEAVE IT ALONE!

The [Dual Keres Prime] are the best dual swords in the game. For the immense amount of slash output that they can deliver, as well as their multipliers and higher crit chance. That is what really makes these things shine if you build them like this the sheer amount of red crits that you'll see with cause frame loss. Just use Primary or Secondary Dexterity on a weapon that has high damage to keep that combo duration up.

With [Khora]'s gimmick of having faster heavy attack efficiency and [Sacrificial Steel] having more crit chance for heavy attacks, you could get max combo and heavy attack with an immense amount of output to nye damage cap levels of damage.

If you really want to make this weapon do deeps, you need a high status applicator secondary like a magnetic [Kuva Nukor] or [Tenet Cycron], as [Condition Overload] will scale off of the status that it procs and will stack with [Blood Rush] and gladiator mods via max combo.

Keep in mind that this is how I build MY weapon's an warframe's, they work really well for me, so if you are one of those people that is going to to go into the comments and give me shit is to how I play the game, I will kindly ask you to put a tooth pick under your toenail and kick a wall. JOKINGLY OF COURSE.

[Top Builds](#)[Tier List](#)[Player Sync](#)[New Build](#)

that is a good as the ones in my builds.

Be sure to take a look at my other builds. I also recommend looking at the vault status of all prime variants in the second link below. If you want information on the quests and the requirements, I recommend looking on the actual Warframe website under the game dropbox to look at the warframe profile videos as well as looking at the quest guide and the faction types. Click the third link below if you are interested.
