STARTER BUILD 40k DAMAGE SKIAJATI (1 FORMA)

I feel like the [Skiajati] is just a *little bit* below [Nikana Prime]. I don't know why, but it feels like it. I mean, 40k is 40k.

Edit: August 11, 2022: Came back after a 2 year break since I got bored with the game, replaced [Gladiator Vice] with [Berserker Fury] since more attack speed and more sustained DPS. I'm still attempting to learn how damage works (although, I might just end up taking a break from the game again) and will continue to make my builds better for players on the early, mid, and end game spectrum.

I am also glad that some of you left suggestions in the comments, I will take them into consideration in later builds.

For now, enjoy?

Edit: Feb. 11, 2023: Things have changed, I'm literally just so much better at the game. Anyway, the status mods are there for the viral since if you're starting, you won't really have a primer and the 40k before the melee changes has went down to 30k, but clickbait titles have been a thing anyway so it is what it is.

Edit: March 10, 2024: Nothing changed, just updating for the algorithm, you know how it is 😭😭

Edit (August 13, 2024): still nothing changed, again updating for the algorithm, uhh
