Ultimate Nuker Mag / End Game / Steel Path / Do any mission EZ

This build can **obliterate** any steel path mission, it works better on defenses and place holding missions, but can do **everything**.

How to play with this :

1. Pull : Use it to control / place ennemis.
2. Magnetize : Your main spell, you must have at least one magnetise active all the time, it keeps you safe, control ennemis, and scale HUGE amounts of damages in area.
3. Polarize : Usefull to replenish tour shields, shred ennemis armor / shields.
4. Breach surge : Another amazing crowd control ability in your kit, combine with magnetize to scale even more damages.

The two next options are related to 100+ level missions where survival is a real point :

(optional) Use [\[Rolling Guard\]](#) when your shields brake, magnetize to create a safe spot, and Polarize to replenish shields. EZ.

(optional) You can always use shield getting threw using an ability due to [\[Brief Respite\]](#) + Augur mods set (be free to pick a Decaying dragon key to maximise shield gatting).

If you're struggling to damage ennemies, be free to replace some range mods with strength mods.

You can grab **ANY** weapons, pet, and focus, tho the next list is (for me) the better ones :

Primary : [\[Kuva Zarr\]](#), [\[Tenet Arca Plasmor\]](#), [\[Kuva Bramma\]](#), [\[Kuva Ogris\]](#), [\[Bubonico\]](#), [\[Cedo\]](#), [\[Exergis\]](#)

Secondary : [\[Kuva Nukor\]](#), [\[Catchmoon\]](#), [\[Cyanex\]](#) <3, [\[Epitaph\]](#)
